

CK023 - No control record for Activity type CHEF /X332900700/ZZANO2 in version 000 / 2017 activity planning /qty planning

Procedure

This error happens when we have a Produced material (which is picking the price from the BOM - including the production activities), and we have no price for these activities. This happens more frequently in the January costing, as the prices on the activities must be set in a yearly basis.

Go to KP26 and insert the correct price for the correct period:

Change Activity Type/Price Planning: Initial Screen
