Expenses >> Next OP*

1. Objective and Scope

1.1. Objective of this Operation

The purpose of this document is to describe how to perform the booking of the secretary expenses of the month. All these expenses have been paid locally through BBVA (cheque) and must be reflected in accounting.

1.2. Scope

This procedure applies to company 0245 – SOLVAY QUIMICA, S.L.

2. Definitions

See [Finance Glossary](#).

3. Tasks description

3.1. I perform the booking of the secretary expenses of the month

On a monthly basis you will receive a xls file (*Secretaría Pago gtos. mensuales DD.MM.YY*) with the detail of the expenses paid during the month. The file presents the following layout:

		PETICIÓN TALÓN BANCARIO			NÚMERO

				Vº Bº		
TOTAL		435,13		CONTABILIDAD		

This is splitted by expenses with VAT to recover "Relación gtos. con IVA" and other payments done, not relevant for VAT "Resto de pagos efectuados".

You must also receive the pdf files with the justification of all the postings to be done (this can be invoices, receipts or other payments).

The xls file is pre-filled with the total amounts, accounts to book and the correspondent imputation (cost center or order) and it was developed to prepare the necessary postings.

You can find the Template of this file in AODOCS [ES PAGOS MENSUALES SECRETARIA_TEMPLATE](#)

For expenses with VAT to recover we need to book the invoice against the vendor account and then book the payment. For others the posting done is just bank account 50601EUR30 against an expense account (61*).

Step 1

In the Freshdesk ticket it should be mentioned the value date of the bank payment. This information should be added in the grey cell after PAGO.

U.S. SECRETARIA									
A favor de Don(a):		AL PORTADOR							
PAGO									
						IMPUTACION			
CONCEPTO	IMPORTE EUROS	BASE	IVA 21% 8F	IVA 0% 8L	RETENCION 8I	PROVEEDOR	GENERAL	Centro de Coste	ORD

This will automatically fill the field value date in the posting file.

Step 2

For each line in the file with VAT to recover "Relación gtos con IVA", you will have to check in the pdf file if the correspondent justification is attached and confirm the following information:

- Invoice has tax retention of 21%: add YES or NO to automatically update the posting file with the correct tax code 27

The "BASE" value (column D) is calculated manually:

BASE total = BASE IVA PDF + (IMP.RETENCION - CUOTA) PDF

Do not fill column E "IVA 21% 8F";

- Base amount (calculated automatically);
- VAT amount if 21%, tax code to use is 8F (calculated automatically);
- VAT amount if 0% tax code to use id 8L (calculated automatically).

Examples:

CONCEPTO	IMPORTE EUROS	BASE	IVA 21% 8F	IVA 0% 8L	RETENCION 8E	IMPUTACION			
						PROVEEDOR	GENERAL	Centro de Coste	ORDEN
Relación gtos. con IVA

5	Testimonios	1,00	3,01	
Nº 8	Timbre Matriz y Autorizadas			0,30
IMPORTES BRUTOS:			3,01	0,30

			TOTAL IMPORTES BRUTOS:	3,31€
B. RETENCION:	3,01	al 19,00 %	IMP.RETENCION:	0,57€
BASE IVA:	3,01	al 21,00 %	CUOTA:	0,63€
			IMPORTE TOTAL:	3,37€

Step 3

Once the information is complete the posting file will be automatically filled.

What you have to ensure is that there are no errors in the formulas and that document and posting dates are correct.

Add the case number in the reference and delete the blank lines before proceeding with the posting using the ZZP_POSTING_FILE transaction.

Step 4

After all postings done it must be attached to all of them the pdf file received.

Step 5

The last step consists in the clearing of the vendor accounts in which the postings were performed.

End of document.
