

Request the creation / update of Master Data

How to access the workflow

>> Back to [Data & Reporting](#) home page

 To request the creation / update of finance master data:

- G/L Account in Chart of Account (mandatory)
- G/L Account in Company Code
- [Cost Centers](#)
- [Profit Centers](#)
- Miscellaneous request (mainly cost elements hierarchies)

You must use a dedicated workflow as described below.

Only authorized requester should be able to submit workflows:

- Costing master data (Controllers)
- General ledger master data (Company accounting managers/directors)

If you are an authorized requester and you don't have the access to PF2 (050)/PRS, see [How to ask access to PRS \(PF2-050\) and to submit workflows for finance master data?](#)

STEP 1

Open the SAP logon

Item	System Description	SID	Group/Server	Message Server
Syensqo ERP - Production - CDP Link	CDP	PUBLIC	cdp.syensqo.com	
Syensqo ERP - Production - PF2 Link	PF2	PUBLIC	pf2.syensqo.com	
Syensqo ERP - Production - PRS Link	PRS	PUBLIC	prs.syensqo.com	
Syensqo ERP - Production - WPF Link	WPF	nsaprd	wpf2.syensqo.com	

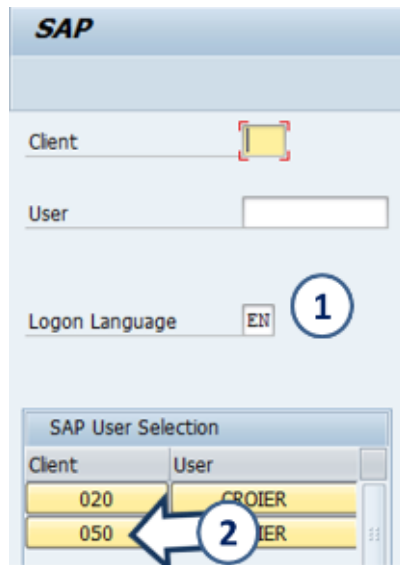

Click Syensqo ERP- Production - PF2

1. Enter Logon Language = EN

 Only English is supported – other languages could result in unpredictable results

2. Click

050

SAP

Client: 050

User: CROIER

Logon Language: EN (1)

SAP User Selection

Client	User
020	CROIER
050	CROIER (2)

STEP 2

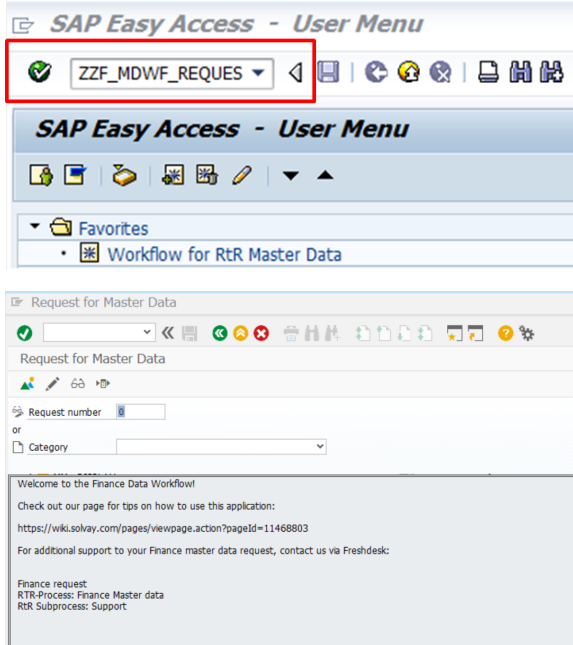

Enter transaction code **ZZF_MDWF_R**

EQUEST and

Enter ↵

 You can add it to your favorites [menu System – User Profile – Expand Favorites]

 Request for Master Data: Initial Screen

The screenshot shows the SAP Easy Access - User Menu. At the top, there is a search bar with the text 'ZZF_MDWF_REQES' highlighted by a red rectangle. Below the search bar, there is a section titled 'SAP Easy Access - User Menu' with a 'Favorites' list containing 'Workflow for Rtr Master Data'. Below this, there is a section titled 'Request for Master Data' with a search bar and a 'Category' dropdown menu. The 'Request for Master Data' section also contains a welcome message and a link to a wiki page.

On the first line of the transaction, you will find a menu where you can find the functions accessible at each moment

1. On the initial screen :

 List existing requests :
« My request report »

 Modify an existing request

 Display an existing request

2. In case of Display or Update of an existing request, enter the request number here

3. In case of Creation, select the category of data you want to create / update

4. The text box at the bottom of the screen is an "info board", giving the last information about the application (update, new functions,...)

After selecting a Data type, the application brings you to the creation screen

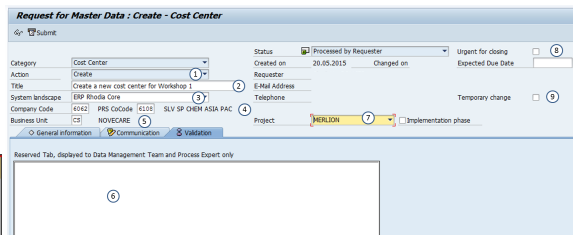

The screenshot shows the 'Request for Master Data' screen. At the top, there is a search bar with the text 'Request number' and a 'Category' dropdown menu. The 'Request number' field is highlighted with a blue circle (1). The 'Category' dropdown menu is open, showing a list of categories: 'G/L Account in Chart of Account', 'G/L Account in Company Code', 'Cost Center', 'Profit Center', and 'Miscellaneous request'. The 'Cost Center' category is highlighted with a blue circle (3). Below the dropdown menu, there is a text box with the text '20-Apr : reminder : tr' and a link 'http://tea4.es.solvay.com/r%20Rtr%20services/'.

STEP 3

Fill the request

1. Select your need :

Create
Update
Unlock
Lock
Translate

The screenshot shows the 'Request for Master Data - Create - Cost Center' screen. At the top, there is a search bar with the text 'Request for Master Data - Create - Cost Center'. Below the search bar, there is a 'Category' dropdown menu with 'Cost Center' selected. The 'Action' dropdown menu is open, showing a list of actions: 'Create', 'Update', 'Unlock', 'Lock', and 'Translate'. The 'Create' action is highlighted with a blue circle (1). Below the dropdown menu, there is a text box with the text 'Create a new cost center for Workshop 1'. The 'System landscape' is 'ERP Rhodia Core', the 'Company code' is '0102', the 'Business unit' is 'NOVEKARE', and the 'Project' is 'MELIION'. The 'Status' is 'Created on 20.05.2015' and the 'Urgent for closing' checkbox is checked. The 'Expected Due Date' is '20.05.2015'. The 'Temporary change' checkbox is checked. The 'Implementation phase' is '0'. The 'General information' tab is selected. The 'Communication' tab is also visible. The 'Validation' button is at the bottom right. The 'Reserved Tab, displayed to Data Management Team and Process Expert only' is at the bottom left.

2. Enter the title of the request which will be used in all emails.

3. Select the system landscape.

- CICC = PI2
- ERP Rodia Core = WP2
- ERP Solvay = PF2

4. Enter:

- the Company code (for WP2)
- or PRS CoCode (for PF2 & PI2)

It can remain blank if request spans over several companies of the same system

5. Select the Business unit. It can remain blank if several GBU are involved

6. It comes when you choose the ERP (see next step)

7. Select the project name when applicable

8. Flag during pre-closing and closing periods, it allows the identification of urgent requests necessary for the closing.

9. Flag to identify temporary request that need to be reversed

The new request must be saved by clicking  before going to the next step

Next steps

Choose the procedure that best suits your needs:

- [Cost Centers requests using the Workflow](#) — It is highly recommended that you input the parameters in the "master data" tab when you are requesting the creation / update of cost centers as it reduces the processing time.
- [G/L Account in Company Code](#) — It is highly recommended to use this method when you are requesting G/L Accounts in Company Code as you can process it yourself and save time.
- [Other Master Data creation requests](#) — To be used for all other type of requests
