

A3011 - Value creation in Convergence

Overview

Convergence is the new place to manage your Actions and Benefits.

With Convergence, you can track Performance and report Value Creation of Purchasing & Supply Chain to the Business.

SATT is fully replaced by Convergence Value Creation. All your existing Actions and Benefits have been taken over in Convergence.

Convergence Value Creation replaces SATT

Old SATT is no longer in use (since October 15, 2017)

Convergence is the new place to manage your Value Creation

A dedicated app "Create Value" is now part of Convergence

This new app is the starting point to manage your Actions and Benefits

All your Actions and Benefits were recovered in Convergence

Value Creation workflow

Value Creation workflow is more straightforward. Remember that manager validation is suppressed for example

Mapping between Value Creation and Qlikview now looks like this.

Action Status	Benefit Status	Responsible to go forward	Reporting
Idea	Idea	Buyer	Visible
In progress	Idea	Buyer	
Implemented	Under Financial Approval	Controller	Implemented Validated
	Validated		
	Rejected	Buyer	
	Cancelled
