 - [Currency Conversion](#)

Purpose of this query

The Report allows to follow the invoiced turnover evolution. All invoices are taken into account (without or with Purchase orders, credit notes, reversed down payment) (list of invoices below).

The invoiced turnover is calculated according to all accounting documents (invoices) input in the system (the invoices can be paid or due invoices).

Variables screen

Several variables are available in the report to allow filtering. Some are mandatory :

Time (mandatory) : Based on the posting dates of the accounting documents (Invoices).

Target Currency (mandatory) : Some key figures will be converted to the selected currency. Note that both local and selected currency will be displayed.

All other variables are not mandatory and correspond to characteristics described below.

Although the "Company" variable is not mandatory, if you have only access to Asia Pacific entities, it is mandatory to select the list of companies. Otherwise no data will be displayed.

Filters

- Vendors: Only Standard Vendors (Z010) are included. Non standard (governements for taxes for example) are excluded.
