

BAAN

BAAN

Baan V is used by US CEM sites to support Enterprise Resource Planning (ERP) functions. The Unix-based application and database servers reside in Tempe, AZ. The servers are run by OneNeck, an outsourcing company located in Phoenix, AZ. Users access the system via a Windows-based client on the individual's PC.

CEM Baan is down for maintenance every Sat from 5-9pm AZT. (Arizona does not observe Daylight Savings Time so...)

For Location	Down Times In Winter Are	Down Times In Summer Are
GM	Sat 7-11 pm EST	Sat 8pm - midnight EDT
Riga	Sun 2am - 6am EET	Sun 3am - 7am EET
Singapore	Sun 7am - 11am SGT	Sun 8am - 12pm SGT

Get started

- [First Time Login Instructions](#) - A Google Document with detailed instructions for first time login to the new Baan client.
