

Edit/Create/Delete a Tridion Slideshow

Attention

XPM is not configured for this content. The creation/edition has to be done in [Tridion Content Manager \(Back office\)](#) itself.

Overview

A promotional Slideshow consists of multiple Banners that can be added into a space.

Size of banners: **1060 x 300 px**

- [Create Slideshow](#)
- [Edit Slideshow](#)
- [Create Slide](#)
- [Remove Slideshow](#)

Information about this tab:

Create a new Slideshow and add it in a Space.

Tip

Check tab "**Create Slide**" to get the [KEEPEEK](#) Banner image(s) in a component that will be added in the Slideshow.

Step 1: Reach location

1 - According to your entity, go to the following location in Tridion Content Manager (Back office):

SW C1 Master-en\Building Blocks\Component\1 ONE<entity name>

The screenshot shows the Tridion Content Manager interface. The breadcrumb path at the top is: Content Management > SW C1 Master-en > Building Blocks > Component > 1 ONE. The left sidebar shows the 'Shortcuts' section with 'Favorites' and 'Custom Pages' (SDL Tridion 2013, Checked-out Items). The 'Publications' section shows a tree structure: SW C1 Master-en > Building Blocks > Component > 1 ONE. The main area displays a table of components for '1 ONE'.

Name	Type
Corporate News center	Folder
Corporate Secretary	Folder
Employee Services	Folder
Excellence Center	Folder
From the desk of Ilham Kadri	Folder
Functions	Folder
GBU	Folder
Info	Folder
Platforms	Folder
SBS	Folder
Worldwide presence	Folder
zSample structure	Folder
zShared Modules	Folder
zzFeed	Folder
ONE issues encountered	Component
test-keepack	Component

Step 2: Create new Banner Slideshow

1 - Create a new component:

- Right-click the <entity name> folder
- "New"
- "Component"

2 - Start adding information in the fields:

- *Title:** Will not be displayed to the end user, only in Back-office
- *Schema:** Select Banner Slideshow
- *List:** Select created Banner Slide(s); you can add as many as you want (3 max. is the recommended)

SW C1 Master trainin... > Building Blocks > Component > 1 ONE > Training

General Source Workflow Info

* Name:

* Schema:

Component Content

Title:

* List:

☐	☐	☐	this-is-slide-1
☐	☐	☐	this-is-slide-2

Check tab "Create Slide" to create the Banner Slide(s).

3 - Save the component by clicking on the Save and Close button in the ribbon toolbar.

Step 3: Publish the new Banner Slideshow

1 - According to your entity, go to the following location in Tridion Content Manager (Back office):

SW W1 ONE-master\Building Blocks\Component\1 ONE\<entity name>

2 - Find the new Banner Slideshow created and then:

- Right-click
- "Publishing"
- "Publish"

3 - Don't forget to publish Child Publications as well

! Always publish in Staging.

Choose One or More Target Types to Publish to:

Name	Selected
Live (CWA)	☒
Staging (CWA)	☒

Publish Settings | Unpublish Settings | Advanced

Publish/Unpublish Scope

- ☒ Publish/Unpublish Content Items (default)
 - ☐ Ignore Failures When Generating Publishable Content
- ☐ Publish/Unpublish Structure Information

Advanced Publish/Unpublish Settings

- ☐ Override Publish/Unpublish Priorities
- ☒ Also Publish/Unpublish in Child Publications
- ☐ Abort Publishing/Unpublishing on All Servers in Case of Error
- ☐ If possible, publish the in-workflow version of an item

▼ Show Items to Publish

Publish Close

Step 4:
Add
Slideshow
to the
Space

1 - Still in the "SW W1 ONE-master" folder, follow the path:

- Root
- <entity name>
- Search "index" and open

Content Management > SW W2 ONE Training mas... > Root > Training

CONTENT MANAGEMENT		Training	
	Shortcuts	Name	Type
	★ Favorites	iksafetyvideotest	Page
	📁 Custom Pages	IKSVT1	Page
	📁 SDL Tridion 2013	imagem-teste-bruna	Page
	📁 Checked-out Items	index	Page
		India Business Sutra	Page
		info-qualite	Page
		information-rh-fin-annee	Page
		Innovative Project Management Training	Page
		inorganic chemistry	Page
		Inorganic_Network	Page
		Inorganic_Test	Page

2 - Click "Insert" and then:

- <entity name>
- Find new Slideshow Banner
- In the "Component Template" field choose "Central Gallery" from the drop-down
- Click "Insert"

⚠ Never add it in 1st position.

Click to enlarge image.

3 - Save the component by clicking on the Save and Close button in the ribbon toolbar.

Step 5:
Publish
the
Space
changes

1 - Still in the "SW W1 ONE-master" folder publish the index

2 - Don't forget to publish Child Publications as well

! Always publish in Staging.

Information about this tab:

Edit / Delete / Add Slides in an existing Slideshow.

Tip

Check tab "Create Slide" to get the [KEEPEEK](#) Banner image(s) in a component that will be added in the Slideshow.

Step 1:
Find the
Slideshow in
Staging

1 - Open Staging in the Space where needed to edit an existing Slideshow, then

- Select the page (click anywhere on the background)
- Then Open in Form View

2 - Check in the "Component Presentations" tab for a component with the template "Central Gallery"

3 - To reach the Slides then:

- Double-click the Slideshow component
- Click OK in the pop-up

Step 2:
Make
the
changes

1 - To:

- Delete a Slide, click the Trash icon - 1
- Edit a Slide, click the Open icon - 2

✓ Check tab "Create Slide" to create a new Banner Slide, then come back to this page to add it by clicking the + icon.

SW C1 Master trainin... ▶ Building Blocks ▶ Component ▶ 1 ONE ▶ Training

SW C1 Master trainin... ▶ Building Blocks ▶ Component ▶ 1 ONE ▶ Training ▶ 1 Banner

General Source Bundles Workflow Info

* Name: this-is-slide-2

Component Content

Title: I'm another slide!

Short description:

* Picture: Solvay France in Paris - thinner

Step 3: Publish the changes

1 - Open Staging and right-click the updated Banner and click "Publish"

2 - Don't forget to publish Child Publications as well

! Always publish in Staging.

3 - Then do the same with the page:

- Select the page (click anywhere on the background)
- Right-click
- "Publish"

4 - Again, don't forget to publish Child Publications as well

! Always publish in Staging.

! Before proceeding you need to add your banner image in [KEEPEEK](#).

Step 1: Reach location

1 - According to your entity, go to the following location in Tridion Content Manager (Back office):

SW C1 Master-en\Building Blocks\Component\1 ONE\<entity name>\Banner

Step 2: Create new Banner Slide

1 - To create a new component:

- Right-click the Banner folder
- "New"
- "Component"

2 - Start adding information in the fields:

- ***Name:** Will not be displayed to the end user, only in Back-office
- **Title:** This text is displayed on the Banner slideshow
- ***Picture:** Select Picture from [KEEP ECK](#)
- **Link:** Users can click the Banner and will be redirected to this link

A screenshot of a web form titled 'Component Content'. The form has several fields: 'Name' (with a value 'this-is-slide-1'), 'Title' (with a value 'I'm a slide'), 'Short description', 'Picture' (with a value 'Solvay Bellarus' and a small image thumbnail), 'Link' (with a value 'Link to findon page:'), 'External link' (with a value 'https://staging.solvay.com/one/trainingmaster/training/index.html'), and 'keepack url'. The form is styled with a light gray background and has a 'Where Used' tab at the top.

Click to enlarge image.

3 - Save the component by clicking on the Save and Close button in the ribbon toolbar.

Step 3: Publish the new Banner(s)

1 - According to your entity, go to the following location in Tridion Content Manager (Back office):

SW W1 ONE-master\Building Blocks\Component\1 ONE\<entity name>\Banner

2 - Find the new Banner(s) created and then:

- o Right-click
- o "Publishing"
- o "Publish"

3 - Don't forget to publish Child Publications as well

! Always publish in Staging.

The screenshot shows the 'Publish Settings' dialog box with the 'Advanced' tab selected. Annotations include: a red box around 'Live (CWA)' and 'Staging (CWA)' in the 'Choose One or More Target Types to Publish to:' list; a red box around the 'Advanced' tab; a red box around the 'Also Publish/Unpublish in Child Publications' checkbox; and a red box around the 'Publish' button. Arrows point from the 'Live (CWA)' and 'Staging (CWA)' boxes to the 'Advanced' tab, and from the 'Advanced' tab to the 'Also Publish/Unpublish in Child Publications' checkbox.

Choose One or More Target Types to Publish to:

Name
☒ Live (CWA)
☒ Staging (CWA)

Publish Settings | Unpublish Settings | **Advanced**

Publish/Unpublish Scope

- ☒ Publish/Unpublish Content Items (default)
 - ☐ Ignore Failures When Generating Publishable Content
- ☐ Publish/Unpublish Structure Information

Advanced Publish/Unpublish Settings

- ☐ Override Publish/Unpublish Priorities
- ☒ Also Publish/Unpublish in Child Publications
- ☐ Alert Publishing/Unpublishing on All Servers in Case of Error
- ☐ If possible, publish the in-workflow version of an item

▼ Show Items to Publish

Publish Close

Tip

Check tab "Create Slideshow" to learn how to make a brand new Slideshow with your new Banner or the tab "Edit Slideshow" to add it in an existing one.
