

How to enable Edit option in Confluence Home page

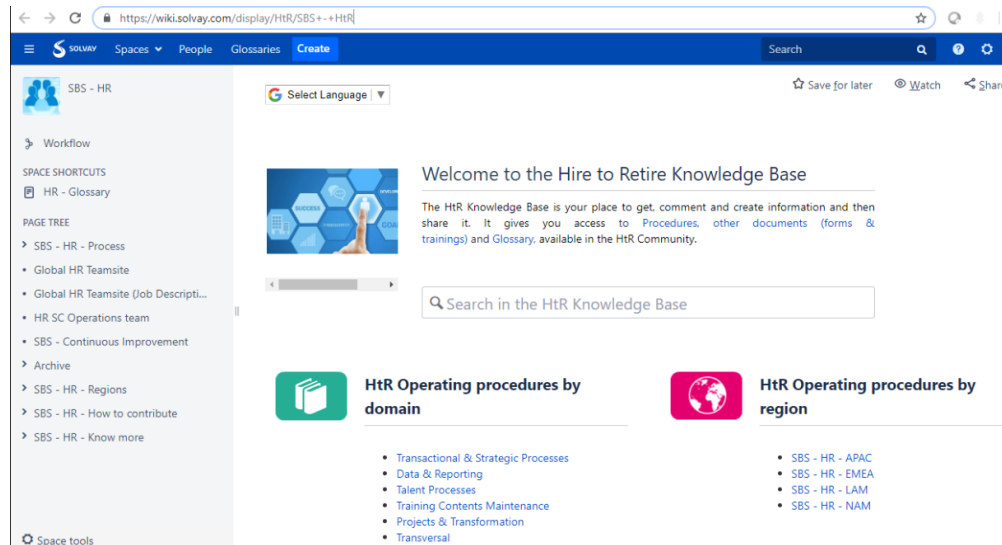

In some scenarios the edit page icon will not be available in home page of the confluence space.

In order to enable the edit option, please follow the steps provided below.

Navigate to the page

For example

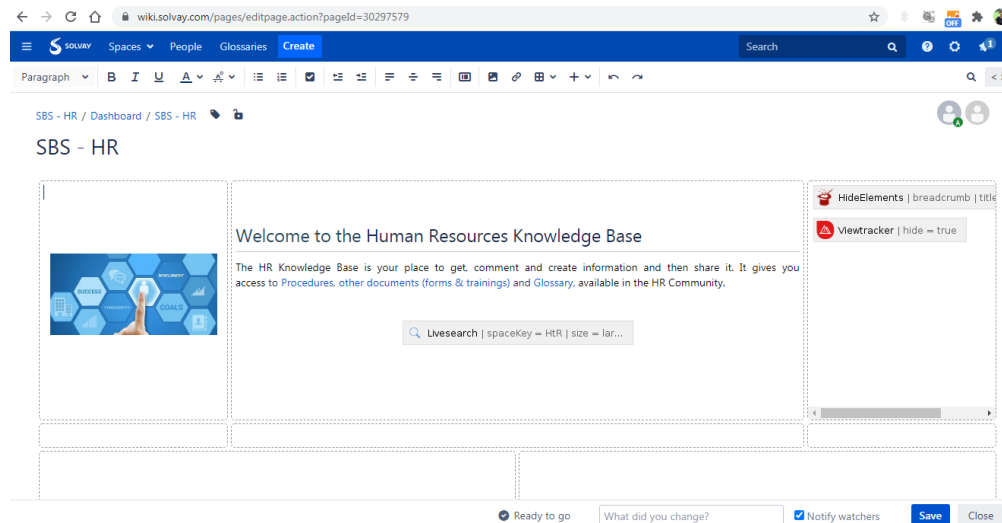

[SBS - HR Operations](#)

Click on 'E' option in Keyboard(Which is shortcut key to enable Edit option)

This shortcut works if the Edit rights is already available, if not it won't work.

Making that helps to edit the page

Click on the Hide Element Macro which probably would have hide the Edit option.

SBS - HR

Welcome to the Human Resources Knowledge Base

The HR Knowledge Base is your place to get, comment and create information and then share it. It gives you access to [Procedures](#), [other documents \(forms & trainings\)](#) and [Glossary](#), available in the HR Community.

Livesearch | spaceKey = HtR | size = lar...

HideElements | breadcrumb | title

Viewtracker | hide = true

Click on Edit option in the macro, by which we can see the options available and can do the needed changes.

HideElements | breadcrumb | title

Edit Remove = true

Make sure the Edit option is unchecked(Which enables the Edit option to be available)

Edit 'HideElements' Macro

Confluence header

☐ Sidebar
Hide the sidebar from the left side

☒ Breadcrumb
Hide the breadcrumb above the title

☒ Title
Hide the page title

☒ Metas
Hide the meta data below the title

☐ Edit
Hide the edit button from the buttons at the top right side

☐ Save for later
Hide the Save for later button (called "Favorite" in Confluence 5.9 and earlier) from the buttons at the top right side
