- **Application Selection:** User needs to select the start button of the application which will take him /her to the concerned application.
- The start button will only be enabled if the user has the required access to the any of the applications on landing page

- User needs to use the arrow to go to the next page if in case he wants to view the applications on other page.

Security

Permissions

User needs permission to access to the bpm.solvay.com or bpmsim.solvay.com for access to application.

Error handling & contact support

- In case the user is facing any issues while accessing the application, they may perform any of the below activities to trigger a support request.
 - *Email to Freshdesk support:*
 - Send an email to 'IS-CAPG-BPM@solvaysbs.freshdesk.com'
 - Provide all the details of the issue i.e. user role, name of application in which access is needed, Region etc
 - If possible a snippet would help the support team rectify the issue in the shortest period of time.
 - *Create a freshdesk ticket via Application "Solvay Support":*
 - Click on the Settings Icon at the header section.
 - Click on Solvay Support

- Enter the details and click on submit.
- Open a ticket manually via Freshdesk:
 - Login to Freshdesk Tool URL - <https://sbs-support.solvay.com>
 - Choose an option to create a new ticket, and chose the below options:

Type *	IS Request
Subtype *	Support
Functional Area *	BPM (Techno)
IS-Process	IS Techno
IS-Subprocess	ERP Integration
IS-Category	BPM
Application *	BPM - Other
