

Refresh a data source or workbook

- [Refresh a workbook](#)
- [Refresh a workbook with the prompt](#)
- [Refresh only one data source \(instead of the whole workbook\)](#)

Refresh a workbook

After opening the workbook, click "Refresh All".

If the following "Store Prompts with Workbook" is ticked on workbook, there will be no prompt window, otherwise, there is a prompt.

Refresh a workbook with the prompt

Click "Prompts for Workbook".

If the following "Merge Variables" is checked for the workbook beforehand, the prompt for each data source are merged.

Otherwise, they are listed one by one >>

Refresh only one data source (instead of the whole workbook)

1. Click somewhere in the data source crosstab area
2. Click the small triangle under "Prompts", then select "Prompts for Data Source".

Company code	Struct.	Actual
0192	SOLVAY INTEROX PTY LTD	
6059	SOLVAY SPECIALITIES INDIA	
6062	SOLVAY SPECIALTY CHEMICAL	
6066	SOLVAY (BANGPOO) SPE CHEM	
6068	SOLVAY SOLUTIONS UK LTD	
6110	SOLVAY SPECIAL CHEM JAPAN	
6268	SOLVAY POLAND SP. Z O.O.	
6301	SOLVAY SOLUTIONS NEDERLAN	
6526	SOLVAY (ZHANGJIAGANG) SPE	
6577	ZHUHAI SOLVAY SPE CHEM CO	
6746	SOLVAY SILICA KOREA CO.	

Then you will be see Prompts for only this data source.

Prompts for BW P&L Query [DS_1]

6746	SOLVAY SILICA KOREA CO.	

Sometimes the data source crosstab area may be only one cell with text "Data removed. Refresh to update data to display" or "No application data". Then you need to click on the cell.

If "Merge Variables" is checked for the workbook, you will not be able to select "Prompts for Data source" because you can only refresh the whole workbook in such a case.

General

☒ Store Prompts with Workbook

☐ Remove Data Before Saving

☒ Merge Variables
