

How to manage page / blog post watchers list

Prerequisite: You must have at least Space Admin role to perform this action

Action	Remarks
Access to the page / blog post that you wish to manage watcher list.	
Click on "Watching" "Manage Watchers"	 The screenshot shows a blog post titled "Second Test Blog" in a space named "Blog Gaetan2019". The top navigation bar includes "Watching" and "Manage Watchers" buttons, both highlighted with red boxes. A dropdown menu for "Watching" is open, showing options: "Watch blog post", "Watch for new blog posts in this space", and "Watch all content in this space". The "Manage Watchers" button is also highlighted with a red box.
You can manage watcher for individual page / blog post or the entire space. Action: Add user to watchers list Remove user from watchers list	 The screenshot shows the "Manage Watchers" dialog box. It has two sections: "Watching this page" and "Watching this space". Each section has a text input field for "Full name or username" and an "Add" button, both highlighted with red boxes. Below the input fields, there is a list of current watchers, including "Wee Shen, Benard Kee (bkee)", with a trash icon next to each name, also highlighted with red boxes. The dialog box has a "Close" button at the bottom right.
