

# 1. Modify the layout of my space

## Overview

When it comes to spaces, you can use 2 different layouts depending on your needs.

The 2 layouts are mentioned below :

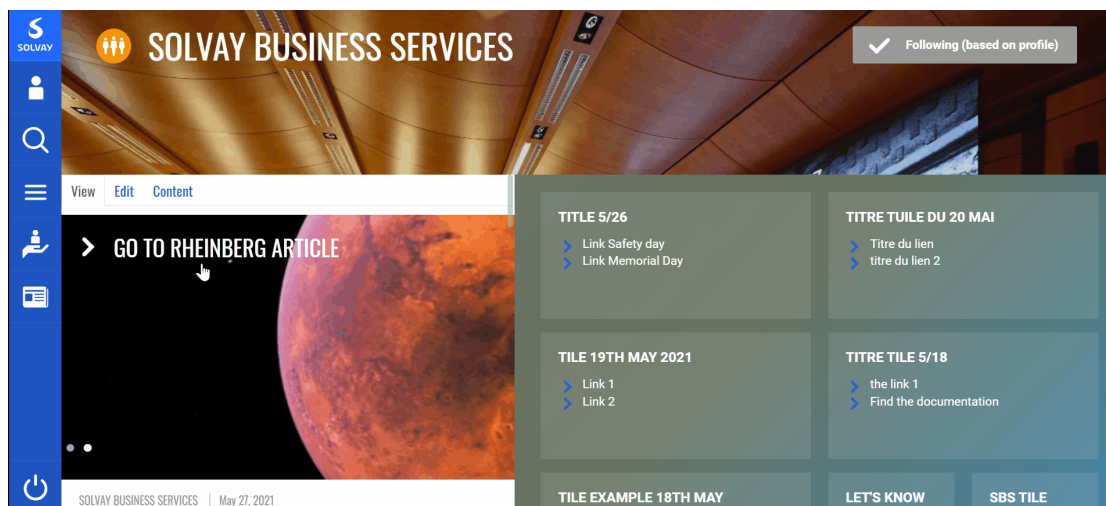

|                                |                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Master<br/>Page layout</b>  | <p><b>What is it ?</b></p> <p>On this page, you are able to not only list articles on the side but also create a "dashboard" with tiles (see this page "Create a tile" for more information). However you are not able to add spotlights.</p> <p><b>How it looks like ?</b></p>  |
| <b>Content<br/>Page layout</b> | <p><b>What is it ?</b></p> <p>On this page, you are only able to display a list of articles; you are not able to create tiles. However, you can add spotlights as within articles.</p> <p><b>How it looks like ?</b></p>                                                        |

## Step-By-Step

STEP 1

- Edit a space

As for most of the components of the space, when you want to modify the layout, you will have to click on the [Edit](#) tab on your space.

## STEP 2

### Select the layout

You are now directed to the space editing page.

You can select the layout you want to use at the top of this page.

Then do not forget to click on [Save](#) at the bottom of the page.

## Overview

When it comes to spaces, you can use 2 different layouts depending on your needs.

The 2 layouts are mentioned below :

## Master Page layout

### What is it ?

On this page, you are able to not only list articles on the side but also create a "dashboard" with tiles (see this page "Create a tile" for more information). However you are not able to add spotlights as within articles.

### How it looks like ?

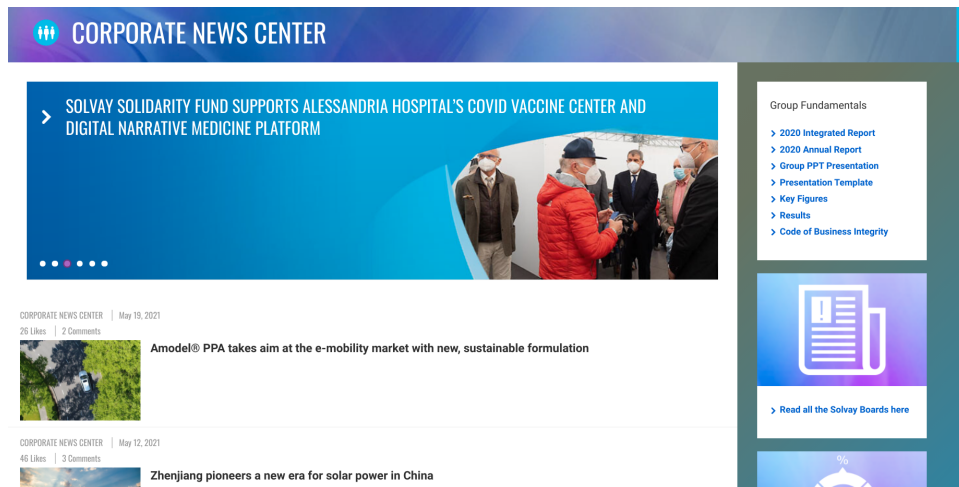

## Content Page layout

### What is it ?

On this page, you are only able to display a list of articles; you are not able to create tiles. However, you can add spotlights as within articles.

### How it looks like ?

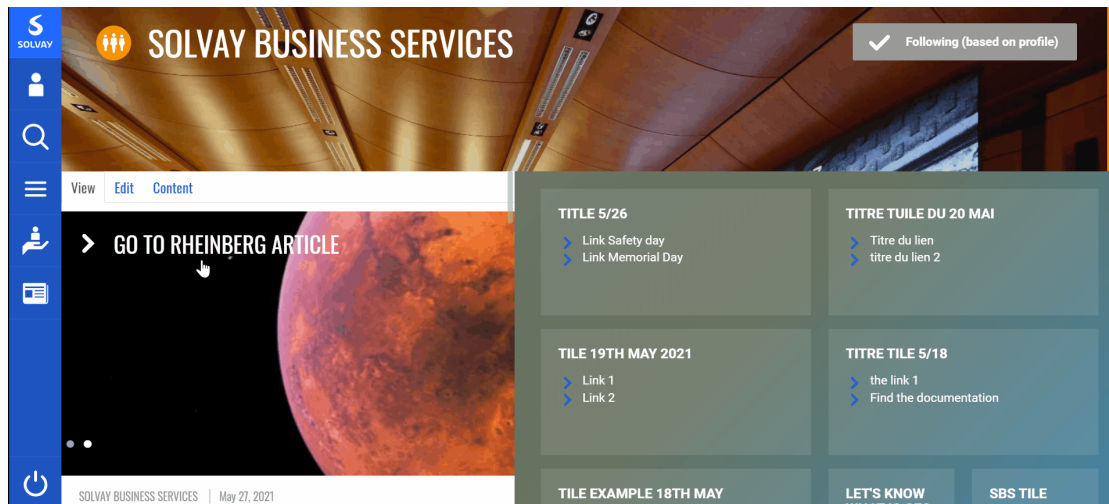

## Step-By-Step

### STEP 1

### - Edit a space

As for most of the components of the space, when you want to modify the layout, you will have to click on the [Edit](#) tab on your space.

## STEP 2

### Select the layout

You are now directed to the space editing page.

You can select the layout you want to use at the top of this page.

Then do not forget to click on [Save](#) at the bottom of the page.
