 - [Rich text image/video](#)
- [Video encoding format](#)

BE CAREFUL, you can add GIF pictures inside Solvay ONE. However, we do not recommend you to use them as it is impacting the performance of our website.

In case you really need to insert a GIF, please check its size and optimize it thanks to a tool like : <https://ezgif.com/resize>.

Formats used in Solvay ONE

	Keepeek		Visual
	Content page	Master page	
<p>Space banner image</p> <ul style="list-style-type: none"> • The banner is responsive and it depends of the width of the screens (up to 1920px PC screen resolution) • Therefore it is recommended to provide the original image up to 1600px so that bigger screens will still see a banner that are not degraded • Meanwhile, on smaller screens, width of banner image will be adapted but the height will be fixed at 180px or 320px depending on page types • Note the recommended zone for the image details 	1600*180px	1600*320px	<p>1600 px</p>  <p>180 px / 320 px</p>
<p>Banner Slideshow image</p>	1060*303px	1060*303px	<p>1060 px</p>  <p>303 px</p>
<p>Editorial and Spotlight image/video</p>	400*266px On 1,5 ratio	Not used	
<p>Tile image</p> <ul style="list-style-type: none"> • Has to be white and transparent 	Not used	65*65px	

<p>Rich text image/video</p> <ul style="list-style-type: none"> • When contributor inserts an image in the rich text, a preview mode of the image/video is being called upon (corresponds to xlarge in Keepeek) • Contributor is free to set width and height of it's image/video • When Finish editing (publishing), image/video generated is based on whr in Keepeek, with the format (width and height) defined by contributor 	width max at 900px	Not used
