

# 7. Add Text/Content

## Overview

The text block is the section where you will insert the content of the editorial.

You can customize the content like if it was a word document

It may contain text, image, video, social media, tables...

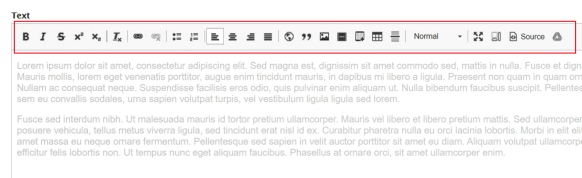

## Table of content

- [Create content](#)
- [Text Formating](#)
  - [Bold](#)
  - [Italic](#)
  - [Strikethrough](#)
  - [Superscript](#)
  - [Subscript](#)
  - [Remove Format](#)
  - [Link](#)
  - [Unlink](#)
  - [Bullet list](#)
  - [Numbered List](#)
  - [Alignement](#)
  - [IFrame](#)
  - [Quote](#)
  - [Media Embed \(image\)](#)
  - [Media Embed \(video\)](#)
  - [Social Media](#)
  - [Table](#)
  - [Horizontal Line](#)
  - [AODocs](#)

## Create content

In [Creation](#) or [Edition mode of an article](#), you can add content by going to the **Text** section

Click on the text block and add your text. You can modify the format of your text (bold, italic, bullet points, subscripts...).

## Text Formating

| Icon                                                                                | Name          | More information                       | Example                            |
|-------------------------------------------------------------------------------------|---------------|----------------------------------------|------------------------------------|
|  | Bold          | The text is formatted as bold          | <b>This is an example text</b>     |
|  | Italic        | The text is formatted as italic        | <i>This is an example text</i>     |
|  | Strikethrough | The text is formatted as Strikethrough | <del>This is an example text</del> |

|                                                                                     |                     |                                                                                                                 |                                                                                                                  |
|-------------------------------------------------------------------------------------|---------------------|-----------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
|    | Superscript         | The text is formatted as Superscript                                                                            | This is an example text                                                                                          |
|    | Subscript           | The text is formatted as Subscript                                                                              | This is an example text                                                                                          |
|    | Remove Format       | Delete the format of the text                                                                                   |                                                                                                                  |
|    | Link                | Create a link redirecting to another page                                                                       | <a href="#">This is an example text</a>                                                                          |
|    | Unlink              | Delete the link associated to the text                                                                          |                                                                                                                  |
|    | Bullet list         | Create a bullet list                                                                                            | <ul style="list-style-type: none"> <li>• This is an example text</li> <li>• This is an example text</li> </ul>   |
|    | Numbered List       | Create a numbered list                                                                                          | <ol style="list-style-type: none"> <li>1. This is an example text</li> <li>2. This is an example text</li> </ol> |
|  | Alignement          | Align your text in the container                                                                                |                                                                                                                  |
|  | IFrame              | Inline frame used inside a webpage to load another HTML document inside it. <a href="#">See related article</a> |                                                                                                                  |
|  | Quote               |                                                                                                                 |                                                                                                                  |
|  | Media Embed (image) | Used to display an image in the article. <a href="#">See related article</a>                                    |                                                                                                                  |
|  | Media Embed (video) | Used to display a video in the article. <a href="#">See related article</a>                                     |                                                                                                                  |
|  | Social Media        | Used to add Twitter post. <a href="#">See related article</a>                                                   |                                                                                                                  |
|  | Table               | Used to create a table. <a href="#">See related article</a>                                                     |                                                                                                                  |

|                                                                                   |                 |                                                                        |  |
|-----------------------------------------------------------------------------------|-----------------|------------------------------------------------------------------------|--|
|  | Horizontal Line | Line used to separate content                                          |  |
|  | AODocs          | Used to add documents from AODocs. <a href="#">See related article</a> |  |
