

# 10. Add a Video

## Overview

There are 2 ways to find a video in Keepeek Library

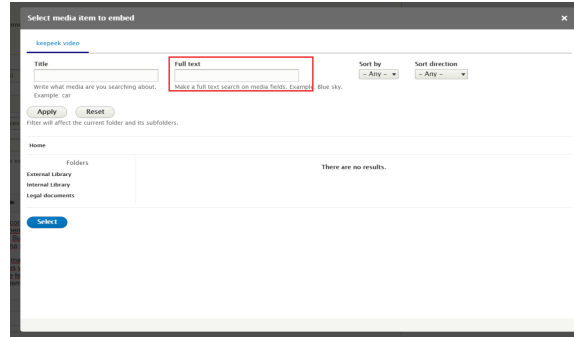

## Table of content

- [Search by Name](#)
- [Search in Folders](#)
- [Select a Video](#)

## Search by Name

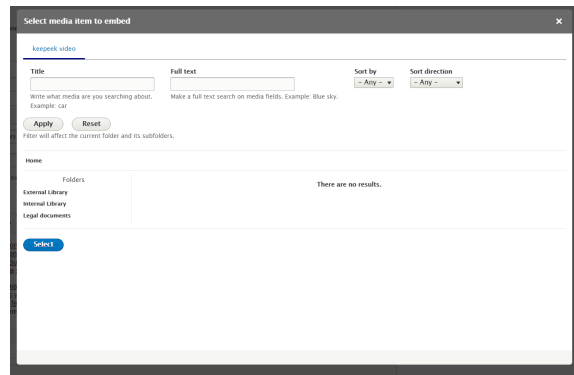

### STEP 1

If you already know the name (or metadata) of a video, you can directly search for it using the input.

### STEP 2

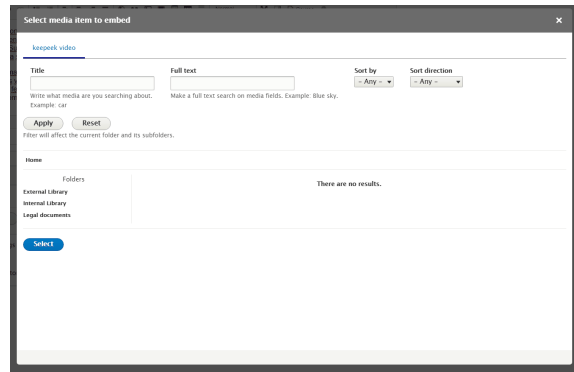

Click on **Apply** to validate your entry and display the available videos according to your research

## Search in Folders

### STEP 1

You can browse into Keepeek folders to find your video.

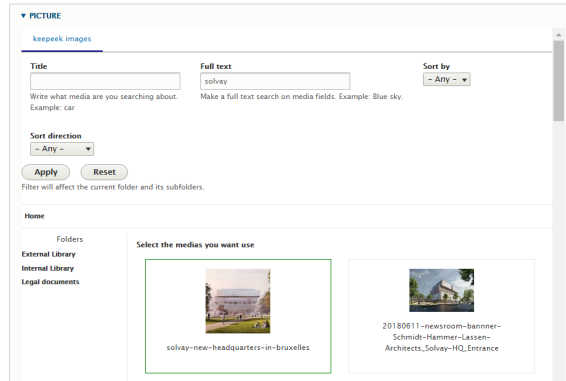

## Select a Video

### STEP 1

Once you found your video, click on it.

A green border should now highlight the selected video

**STEP 2**

In order to validate your choice, you have to go to the very bottom and click on **Select**
