

How to resize an image ?

STEP 1

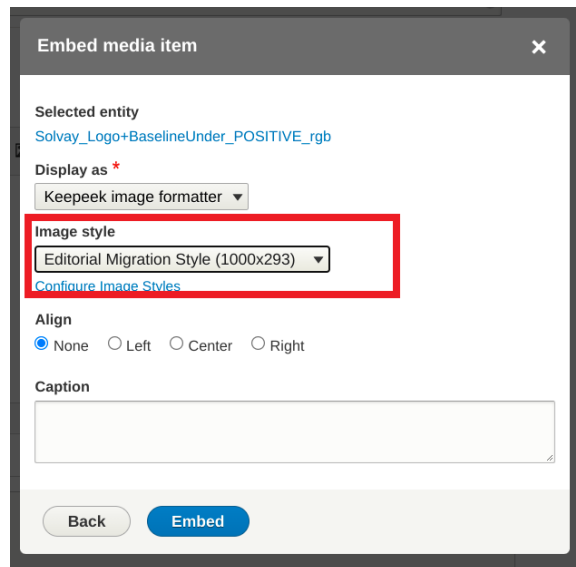

When you are adding a picture to your article, you can select a specific format.

For that purpose, after having selected your image, choose the format **Keeppeek Image Formatter** in the drop down list.

STEP 2

Then a new field is appearing : **Image style**.

STEP 3

Here, a long list of formats is available. You just have to select the format which suits your needs !
