

Confluence - Google drive

Follow the below steps for inserting google drive document in your confluence article :

- Initially enable google drive in your confluence profile. To do so click on Profile tab and follow the below process.

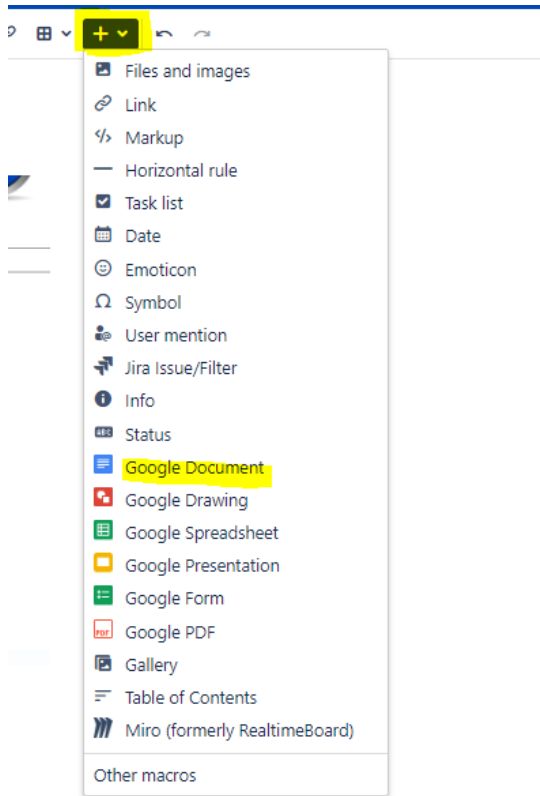

The screenshot shows the 'Google Drive' tab in the Confluence navigation bar. Below it, the 'Google Drive Authentication' section displays a warning: 'You are required to authorize Confluence to access data from Google Drive.' A red box highlights the 'Authorize with Google Docs' button. A red arrow points from this button to the 'Costing would like to:' section, which shows the Google Drive logo and the text 'View and manage the files in your Google Drive'. Below this, there is a paragraph of terms and conditions. A second red arrow points from the 'Allow' button in the 'Deny' / 'Allow' selection area to a green 'Success!' message box that says 'You are currently authenticated with Google Drive'. A 'Revoke' button is also visible at the bottom left of the success message.

OR

The screenshot shows a Confluence article titled 'How to Perform a Promotion in My HR Services'. The article content includes an 'INTRODUCTION' section and a 'USEFUL LINKS' sidebar with a link to 'Rewards and Promotion Process at Solvay'. A red box highlights a blue error message: 'You have not authorized access to Google Drive or your token may have expired.' Below the error message is a button labeled 'Authorize with Google Drive'. Below the error message, there is a paragraph of text: 'If you are new to Solvay's Wiki space, you may need to link your Google Drive in order to see embedded documents. Follow the instructions [here](#).'
