

SCREEN - Packaging BW query

SCREEN - Packaging BW query

>> Back to the [SCREEN - Logistics & Packaging](#) home page

This purpose of the application is to provide Solvay users a set of reports to follow-up Packaging costs.

BW Workbooks

- [SCREEN - Pack. Inventory analysis](#) — The aim of Inventory query is to provide users with an helicopter view in qty/value of Packaging stocks in WP1 and PF1
- [SCREEN - Pack. Manuf. Consumption analysis](#) — The aim of this query is to provide users with a transversal view of Packaging material consumption in production process in WP1 and PF1
- [SCREEN - Pack. Purchasing analysis](#) — The aim of Purchasing query is to provide users with a transversal view in qty/value of Packaging Materials purchasing in WP1 and PF1

Definition of a packaging in Screen reports

A material is a packaging when its [valuation class](#) is:

- in WP1 = **Z110** CS Packaging
- in PF1 = **Z051**

It corresponds to the GL stock account:

- in WP1 = **31000300**
- in PF1 = **2110110000**

Packaging purchasing without material is not included in Screen BW reports

Scope of Screen reports

Source of the BW report = WP1 and PF1

Due to regulatory constraints in the US, the GBU Composite Materials is not included in the report "Consumption Analysis"

Period = Data from 01.2019
