

Digital Signage - Appspace Overview

Digital Signage - Appspace Overview

What is Appspace?

Appspace is a Digital Signage solution which displays content such as digital images, video, web pages, weather data, or text on a screen located in a "Business" area (Office Buildings, Office Reception Areas, Meeting rooms,...). Appspace is a web application software which has the contents for Digital Signage channels and can be managed via <https://cloud.appspace.com/>.

It is the workplace platform that increases employee productivity and improves company culture.

Find out more in Appspace technical product documentation portal via <https://docs.appspace.com>.
