

Digital Signage - Appspace Libraries: Creating a Card

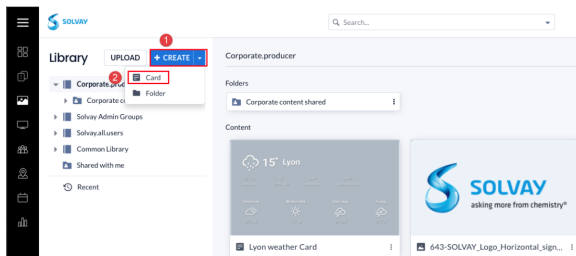

Digital Signage - Appspace Libraries: Creating a Card

How to create a card from the Library?

1) Click on the arrow just beside the word **+CREATE**

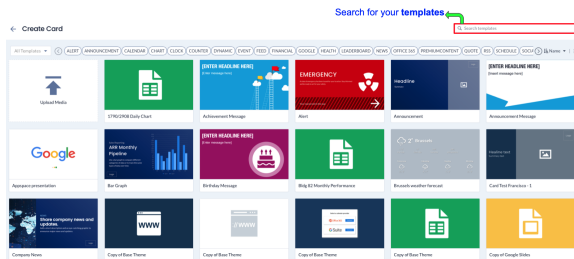

2) Choose **Card**

or You also can directly click on **+CREATE** 😊

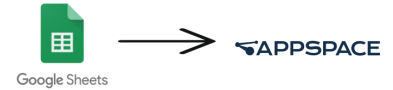

3) Select the **Card** you want to create in the library. And, also search for your **templates** (if you have the template name).

Or click on **Upload Media** in case you want to upload content to your library. 😊
