

# AppSpace - Digital Signage

## AppSpace - Digital Signage

AppSpace is the system for management of lobby and other TVs that broadcast company information/content at Syensqo offices. Slides, videos, cafeteria menus, weather forecasts and other content can be selected to show in one or more rooms, across offices or even company-wide.

## Syensqo AppSpace cutover from Solvay

**Feb 17-21**

**Are you an AppSpace Office/Content Manager; interested in how to prepare for the AppSpace migration from Solvay to Syensqo?**

Key Dates:

Feb 3 Start: Content Managers: Receive access to Syensqo AppSpace (via email)

Feb 12 All published AppSpace channels active on this date are recreated in Syensqo AppSpace

At the moment of the display cutover (see dates below, this will be the channel content displayed until content managers update them in the new platform

Feb 13 Early Access: Self-migrate library content from Solvay AppSpace to Syensqo

**Feb 17-21 Syensqo AppSpace displays cutover from Solvay and go-live**

March 7 Access to Solvay AppSpace for library content self-migration is disabled

For details on what to expect and what you need to do; please refer to the [AppSpace Content Manager's Migration Guide](#)

The key point to understand is that content currently in published channels (ie. ones in use/on display now)... WILL be automatically migrated for you.

Need additional migration information or help? Email the AppSpace migration team at:

[it.separation-program+appspace@syensqo.com](mailto:it.separation-program+appspace@syensqo.com)

## Get started with AppSpace

**Are you a new or existing AppSpace Office/Content Manager; interested in how to use AppSpace to create and manage sign content? Use the links below:**
