Major Repairs

Divestment for each maintenance shutdown (IFA.01.02)

The aim of major maintenance work is to verify that the asset is being kept in good condition without modifying its life. The costs should be recognized as major maintenance costs. These costs should be considered as a capitalized component if: - They belong to a multi-annual recurring major maintenance operation,- Total costs reach a minimum threshold of 500 kEUR.

Every quarter this process should be performed in order to identify the fixed-asset for Major Repair which should to be removed.

- **Minimum frequency:** At each quarterly
- **Control owner function:** Service Center Management Accounting Service Unit

- **Application level:** Group - All assets (tangible & intangible) - Period of controls: each quarterly.

- **Control description:** SU MAC extracts before the 15th of each quarterly closing month the list of shutdowns (based on asset class) capitalized and checks for each case that a divestment was booked concerning the previous shutdown. If it is not the case, SU MAC alerts the SU MAC I&D Key User who will take corrective actions.

- **Risk description:**

Misstatement of financial reporting (including non-compliance to IFRS rules): financial statements do not reflect the true value of the company's assets
