3.2 I submit a request for a cost center creation or modification

It is highly recommended that you input the parameters in the "master data" tab when you are requesting the creation / update of cost centers as it **reduces the processing time**. Nevertheless, if you have difficulties in putting the data in the "master data" tab, you can attach an excel file with all the mandatory parameters:

- Type of cost center (production, commercial, administrative);
- BFC heading/value field where the costs should be reported;
- Profit center (WP1)/Business area (PF1);
- Person responsible.

STEP 1

As the processes differ depending on the type of action (create, update, lock, unlock) and the ERP system involved, a separate request must be submitted for each system and each specific operation.

In SAP PRS 050 go to transaction ZZF_MDWF_REQUEST. Select "Cost center" in category field and "Create" in action field. Populate the title and the system landscape.
