1 - Objective and Scope

Objective of this operation

The purpose of this task is to ensure that all items in **AODOcs** (previously we use t-code for Analyze and Reconcile Account or ARA) related to IFRS 16 accounts are properly reconciled for audit purpose. This should be done according to the deadline shared by General Ledger team, but normally it's until D-5.

Scope

This procedure is applied to all WW companies under IFRS 16.

2 - Task description

ARA item reconciliation

To Reconcile ARA, access [AODOcs - FSL Account Reconciliation Tool Repository](#) and select "To be Reconciled" for opening items or "All Document" for all status items.

The screenshot shows the 'AODOCS FSL Reconciliation Tool Repository' web application. The header is blue with the title and a search icon. Below the header is a search bar with 'New' and 'Search in All Documents' buttons. The main content area is divided into sections: 'Purpose & Compliance' and 'Support Documentation'. The 'Purpose & Compliance' section lists three bullet points: 'Consistent Procedures', 'Centralized Storage', and 'Transparency & Accessibility'. The 'Support Documentation' section lists four resources: 'Overview FSL Tool Training', 'GuideBook', 'Presentation', and 'Calendar'. On the right side, there is a sidebar with a 'Workflows (23) See all' link and a table showing the status of reconciliation tools.

Reconciliation Tool	Count
To be Reconciled	2
To be Reviewed	21

The red circle in column "State", if the status still be "To be Reconciled", it means that ARA still needs to be performed.
