

Creation of new business roles in WP1 system.

This article explains procedure to follow to create a new business role in IDM for WP1 system.

This only applicable when there is a need of creating new BR as other BR's which are already available does not match with user requirement.

System : WP1

Step-by-step guide

Suppose if we cannot find any Business role in IDM for a particular role in WP1 system , or if we are not able to find any Business role which matches the user requirement, we need to follow the below steps

Hello Subham,

The user only needs EHS Display access, so the business role that you've assigned is wrong - please remove the assignment.
After Soon Aik creates the business role please assign it to the user: **PR: ALL BUSINESS - WORLDWIDE - EHS BASIC DISPLAY**

This business role will give her access to CG02 and ME2M, however, for transaction ZWOCR0700 it is restricted to SC Provisioning.
So as her manager rejected this business role, she will not have access.

Best regards.

1. The first step is we can add note to Gabriele Andrade(gabriela.andrade@solway.com) stating that to check it once from her side as we are not able to find the exact business role.
2. She will check from her side and guide you with the exact role to be assigned if there is any available.
- 3.If there is a need of creating new business role, Gabriele will add note to Veerle Ravijts (veerle.ravijts@solway.com) or SoonAik WEE(soonaik.wee@solway.com) to create the new Business role with name of the Business Role and Privilege Roles related to that BR.

Hello Soon Aik,

Could you please create the below business role for EHS? The approver can be set as **Joseph Haupt**.

Unique Id	Display Name
ROLE:BUSINESS:PR-SHARED-WW-WORLDWIDE-EHS-BASIC DISPLAY	PR: ALL BUSINESS - WORLDWIDE - EHS BASIC DISPLAY

Unique Id	Privilege
ROLE:BUSINESS:PR-SHARED-WW-WORLDWIDE-EHS-BASIC DISPLAY	PRIV:ROLE:WP1CLNT400:ZS_9999_BCS_M001
ROLE:BUSINESS:PR-SHARED-WW-WORLDWIDE-EHS-BASIC DISPLAY	PRIV:ROLE:WP1CLNT400:ZC_PLFWW_EHS_011

Thank you in advance.

4. Once the new Business Role is created by Veerle or SoonAik we can assign that role to the concerned user.
