Hello Santosh, Abhiram,

If you need ITAR flags in IdM, please contact HR ([sbs.HtrSupport@solvay.com](mailto:sbs.HtrSupport@solvay.com)) and ask them to setup the security clearance for the following employee:

userid HARR6151 - pennr 52011683 - [Mark.Harrell-contractor@solvay.com](mailto:Mark.Harrell-contractor@solvay.com)

br,  
Veerle

- Once the **9&\* FLAGS** is cleared for the user we can provide the access to the user in SAP WPX AND WP1 system

Hello Santosh, Mahender,

ITAR flag for SAP userid HARR6151 is ok (I just checked HR ticket 10567574) so please handle this ticket asap.

br,  
Veerle

Dear Bryce,  
Trust you are doing good and safe.

As per request access has been given to users by adding a business role in IDM. Once approved by a concerned approver through IDM TOOL or netweaver user can have required access in WP1/WPX 400 system, Approver might get a mail notification regarding approval either in mail or spam, approver should approve or reject it accordingly.

User id :- HARR6151

@Bryce, You should be getting the link on your mail to approve or you can access the below link to approve the requests,
