Dear Cristina,

Thanks for your email.

Follow the information as requested.

For the above mentioned reasons, please, we need more information about:

- system name where the access is needed

SAP / WP1

- the list of few main transaction codes that are going to be regularly used

For SAP transaction, it's the /N/PWS/ZCIR103_D

For SRM7 approval, it's a regular workflow where I receive an email and I do the approvals by email through a link

- plant/GBU/geographical perimeter

7525/Coatis/Paulinia, São Paulo

Since No role is available for the plant code 7525 , GBU is COATIS and the SITE is **Paulinia** , **Brazil** under this transaction **/PWS/ZCIR103_D IN** for SAP WP1 SYSTEM in SUIM

We can assign only **COMEX** type of role only under this transaction **/PWS/ZCIR103_D IN**

Number of Selected Roles: 1

System WP1 **Client** 400 **Checked by** GARG3139 22.02.2022 14:34:39

Selection Criteria:

Single Roles	X
Composite Roles	X
With Valid Assignment of User(s)	X

Role	Type	Short Role Description
