

# Providing Access to the Transaction ZFI\_INVENTORY\_SMOG in WP1 System.

This article is about giving Access to the Transaction ZFI\_INVENTORY\_SMOG in WP1 System.

WP1 is the Production Environment.

## Step-by-step guide

Reference Ticket :

<https://sbs-support.solvay.com/a/tickets/5984745>

1, Read the Ticket description carefully or get information from user in which system he/she need access.

2, In this Ticket user given wrong information about Transaction code, wrongly Mentioned " ZF1\_INVENTORY\_SMOG " instead of "ZFI\_INVENTORY\_SMOG"

If There is no Bu role for that particular T code. Kindly check with Gabriela ([gabriela.andrade@solvay.com](mailto:gabriela.andrade@solvay.com)).

Kindly look into the screenshot

Hello Subham,

In the user's error screenshot, you can see that on the ticket request he had a typing error, the correct transaction is ZFI\_INVENTORY\_SMOG - with that the below business role would fit on his need, also because his manager confirmed in the last assignment that he is now part of the Controlling team.

3, Kindly check with user GBU in IDM, any chance of finding BU roles.

4, When analyzing access for users that are with GBU Controllers, always start checking the roles that have the name "Controlling"
