

Table ZTFI_CESBPKG - Cost elements Subpackages mapping

STEP 1

Logon to PRS system (PF1_050)

Consult table with transaction SM30

Enter the table ZTFI_CESBPKG and

STEP 2

The table was created to map the lowest level cost element group from the ZSOLV hierarchy to the cost sub-packages in Co\$ta.

- The cost sub-package is the most detailed and the lowest level in the cost taxonomy hierarchy which includes 3 levels of granularity: Macro-package, Package and sub-package.
- Currently this mapping is done directly in BW with relationship cost element / cost sub-package.

The maintenance requires the system landscape input to ensure that a valid cost element group is entered in the table. This means that each entry needs to be replicated for the 2 system landscapes: ERPSOLV (PF1) and ERPRCS (WP1).

System	Cost Element Group	Mode	Description	Cost Sub-Package	Cost Sub-Package Short Text
ERPSOLV	ZSO-28237A		750000 Net results from associate & JV	P29999	Out of Scope
ERPSOLV	ZSO-29990A		R100000 Net Sales	B10 P29999	Out of Scope
ERPSOLV	ZSO-29990B		R100000 Received royalties	C42 P29999	Out of Scope
ERPSOLV	ZSO-29990C		R112000 Other rev.-Indus Adm&com	B30 P29999	Out of Scope
ERPSOLV	ZSO-29991A		R112000 Royalties paid (sales)	C41 P29999	Out of Scope
ERPSOLV	ZSO-29991B		R112000 Other var. exp. on sales	C40 P29999	Out of Scope
ERPSOLV	ZSO-29991C		R112000 Logistics costs - variable	P29999	Out of Scope
ERPSOLV	ZSO-29993		AND / DEPRECIATION excluding IF&S16	P29999	Out of Scope
ERPSOLV	ZSO-29993B		IF&S16 direct depreciation	P29999	Out of Scope
ERPSOLV	ZSO-29994A		R301000 Other recurring op Inc & ch	155 P29999	Out of Scope
