

Confluence - Google drive

Follow the below steps for inserting google drive document in your confluence article :

- Initially enable google drive in your confluence profile. To do so click on Profile tab and follow the below process.

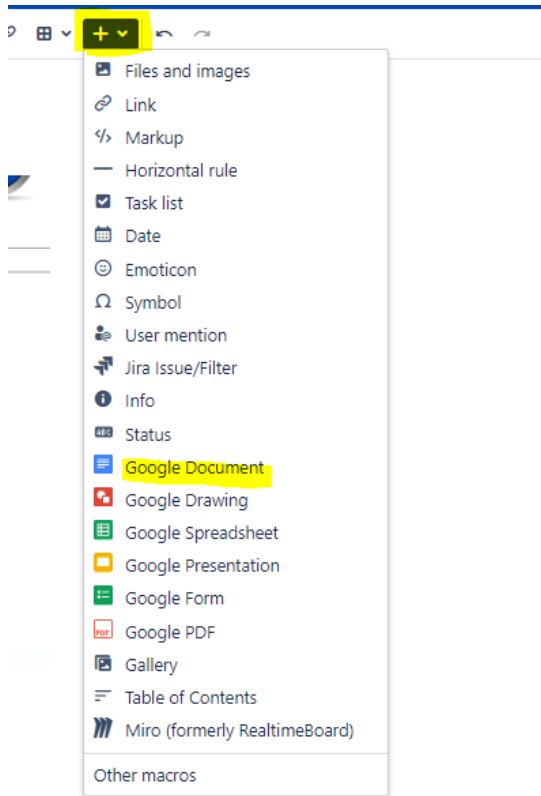

The screenshot shows the Google Drive authentication interface in Confluence. At the top, a navigation bar includes 'Profile', 'Tasks', 'Favourites', 'Watches', 'Drafts', 'Network', 'Settings', 'Comala Workflow Tasks', and 'Google Drive'. A 'Connect your drive' link is visible on the right. A yellow warning box states: 'You are required to authorize Confluence to access data from Google Drive.' Below this is an 'Authorize with Google Docs' button. A red box highlights this button, with a red arrow pointing to the 'View and manage the files in your Google Drive' section. This section includes a Google Drive logo, a 'Costing would like to:' label, and a paragraph of terms and conditions. At the bottom right of this section are 'Deny' and 'Allow' buttons. A red box highlights the 'Allow' button, with a red arrow pointing to a green success message box that says: 'Success! You are currently authenticated with Google Drive'. A 'Revoke' button is located below the success message.

OR

The screenshot shows a Confluence article titled 'How to Perform a Promotion in My HR Services'. The article has a purple header and a dark blue sidebar on the right titled 'USEFUL LINKS' with a link to 'Rewards and Promotion Process at Solvay'. The main content area has an 'INTRODUCTION' section followed by a paragraph about the promotions process. Below this is a note about Strategic Business Partners (SBPs). A red box highlights a blue error message box that says: 'You have not authorized access to Google Drive or your token may have expired.' Below the error message is an 'Authorize with Google Drive' button. At the bottom of the article, there is a paragraph stating: 'If you are new to Solvay's Wiki space, you may need to link your Google Drive in order to see embedded documents. Follow the instructions [here](#).'
