

# AMC - Bollate

## Welcome to our Analytical and Materials Characterizations Labs!

AMC Labs Manager: [Silvia Petricci](#)

Syensqo Specialty Polymers stands at the forefront of high-performance materials, pioneering innovative and sustainable solutions across a wide range of markets including Automotive and Aerospace, Industrial and Environmental, Consumer and Construction, Electrical and Electronics, Healthcare, and Batteries.

The **Analytical and Materials Characterization (AMC)** department in Bollate plays a pivotal role, collaborating closely with R&I, Manufacturing, Regulatory, and Commercial teams to characterize and test all GBU materials.

From the discovery of a new molecule in the laboratory, through its journey to industrial-scale production, and ultimately to its final application, we are uniquely positioned to drive scientific exploration and innovation.

Here, you will find information about our teams, expertise and capabilities designed to support your needs and fuel the spirit of discovery.

*"All truths are easy to understand once they are discovered; the point is to discover them."*

**Galileo Galilei**

To find out our Labs check out the [Bollate Site Map](#)

### Mission

Our Purpose is to build a **strong partnership** with **our customers** by ensuring competent and timely support. We proactively anticipate their needs by providing **innovative analytical approaches**.

### Who We Are

AMC Labs are part of the Specialty Polymers Analytical Service and fully integrated in the [Syensqo Analytical Network](#)

Besides international ASTM/ISO references, proprietary methods are developed and applies for structural characterization and testing of the whole GBU product portfolio (Fluoropolymers, Aromatics, Composites).

Standard and complex analysis are provided with a multi-techniques approach aimed to investigate material compositions, support research development and understand the performance of materials in their final applications.

**CUSTOMER**

---

#### Our Organization

---

##### Chromatography

Lab Manager: **Cristina Grossi**

- Gas Chromatography
- Liquid Chromatography, Organic Ion Chromatography and AOF-CIC

##### Spectroscopy & Inorganic

Lab Manager: **Roberto Biancardi**

- Spectroscopy Lab
- Inorganic
- Open Access Lab

##### Materials Characterization

Lab Manager: **Paolo Fossati**

- Mechanical and Chemical Resistance
- Rheology and Physical Lab
- Microscopy, Solution & Colloids
- Front Desk CTD

---

**Shipment Address:** Syensqo Specialty Polymers, viale Lombardia 20 , 20021 Bollate (MI) - Italy - Tel. +3902290921

12 May 2026 💡 monthly update

**Feedback** is a gift!

È ora disponibile un nuovo **modulo di feedback ad accesso rapido** (cliccando nella sezione qui a destra) e/o direttamente all'interno dei **report analitici**. Il feedback va riferito a una **specifico richiesta di analisi**: vi verrà chiesto quindi di indicare il numero di richiesta o di campione **LabWare**. Tutti i feedback saranno **revisonati** e, in caso di criticità, verranno avviate analisi delle cause e azioni correttive, a supporto del miglioramento continuo dei servizi AMC

**Leave your  
feedback here!**

# NEWS

## DIGITAL NEWS

The Bollate LabWare LIMS is currently experiencing some issues, particularly related to the workflow of cloned requests and the calculation of expected dates. We are aware of the situation and are actively working with the technical support team to restore full functionality
