

ZWFAT187 - RCS Value streams descriptions

STEP 1

In WP1 system, enter transaction **ZWFA T187**

STEP 2

The value stream code is maintained in several languages.

Usually, the description on this table is aligned with the related description in the profit center hierarchy.

The screenshot shows the 'RCS Value Stream Description' table in SAP. The table has three columns: 'Val. Stream', 'Language', and 'RCS Value Stream Description'. The first row is selected, showing 'CGUOG090' in the 'Val. Stream' column, 'ZH' in the 'Language' column, and 'CGUOG090 MISC OIL & GAS CGU WW' in the 'RCS Value Stream Description' column. The table is scrollable, and the first row is highlighted in blue.

Val. Stream	Language	RCS Value Stream Description
