

Gas Chromatography

Mission

The aim of the laboratory is to support requestors in the quantitative and qualitative determination of VOC (Volatile Organic Compounds), SVOC (Semi-Volatile Organic Compounds) and fluorosurfactants in a wide range of matrices (polymers, dispersions, waters, gas phases, pure chemicals, ecc...).

The customers of the Laboratory are:

- R&I (Research and Innovation);
- CTD (Customer Technical Development);
- Production Plants;
- RAPS (Regulatory Affairs and Product Stewardship);
- HSE (Health, Safety and Environmental).

Techniques

- [Gas Chromatography \(GC\)](#)
- [Gas Chromatography – Mass Spectrometry \(GC-MS\)](#)

Team

	Name	Role	location
	POGLIAGHI, Alberto	Team Leader	B102-136
	BUSNELLI, Patrizia	Technician	B102-32
	CORSARO, Antonio	Technician	B102-28
	POLLONE, Paola	Researcher	B102-22
	VENIER, Stefania	Technician	B102-32
