

# Co\$ta - Initiatives My report

## Co\$ta - Initiatives My report

>> Back to the [Co\\$ta project](#) home page

### General presentation:

In this page you have the possibility to build 100% custom reports with a specific perimeter chosen by you. You can create as many reports as you need and save them with bookmarks.

### Pre-selected filters:

In the page there is by default a table that is pre-constructed:

- Dimension: System ID, Implementation Month/Year, Month Year loading
- Measure: Unweighted total.

In that case it is a classic table, if you want you can click on an icon and change the table into a pivot table.

The pre-selected dimensions and measures are not fixed, you can remove them and add new ones. To do this you have two options:

- Select the dimensions and measurements in the two sections on the left side of the screen. If the background of one measure or dimension is colored that means it's selected.
- Click on the crosses of those you want to remove at the top of the table.

Action Title	System ID	Unweighted Total	Impk	Month/Year loading
A-015201	21224.6	2022 Sep		2022 Jul
A-015219	9228.1	2022 Nov		2022 Jul
A-015222	11457.9	2022 Oct		2022 Jul
A-015233	0.0	2022 Mar		2022 Jul
A-015274	9228.1	2022 Nov		2022 Jul
A-015226	9228.1	2022 Oct		2022 Jul
A-015227	4614.9	2022 Nov		2022 Jul
A-015228	5536.9	2022 Nov		2022 Jul
A-015233	8395.3	2023 Jul		2022 Jul
A-015234	4614.9	2023 Jul		2022 Jul
A-015235	0.0	2022 Oct		2022 Jul
A-015236	7382.5	2022 Nov		2022 Jul
GBU	0.0	2022 Aug		2022 Jul
GBU vs CBS	0.0	2021 Oct		2022 Jul
GBU vs CBS	0.0	2022 Nov		2022 Jul
Implementation Month/Year	A-018978	9228.1	2022 Dec	2022 Jul
Macro-Package	A-025483	10000.0	2022 Oct	2022 Jul
Months-Year loading	A-029869	7751.6	2022 Jul	2022 Jul
	A-024544	0.0	2021 Dec	2022 Jul

### Measures:

- Investment total : Investment in Convergence (Section: Non Procurement)
- Unweighted total : Expected benefits in Convergence
- Weighted total : Impact benefits in Convergence
