- 4. PREV Exchange rates
 - 4.1 Initial creation and update (July YY)
 - 4.2 Update Sept. PREV with Sept. YY REEL Exc. rates
 - 4.3 Update PREV with Dec. YY REEL Exc. rates
 - 4.4 Piloting to BFC_Prod_SCO database
- 5. Consolidation definition
- 6. Communication to Syensqo Corporate Controlling

1. Objective and Scope

The purpose of this document is to describe the BFC Admin activities related to the maintenance of the **PREV category** in BFC.

PREV phase is **operated by the Corporate Controlling team** (not GAR) and **used by GBU controllers to report and consolidate forecasted / budgeted Dec. Y and quarters Y+1:**

- **Budgeting process** conducted at **detailed level in Controlling tools**, **BFC being the final step to aggregate GBU's forecasts** as well as to provide **Consolidated Forecasts at SYENSQO Group level**
- **5 periods** : Dec. Y / Quarterly 03 06 09 12 Y+1
- Reporting to BFC **not handled by legal company but at the GBU level** using fictive reporting companies (1 package per GBU + 3 dedicated central packages for Corp Controlling, all handled in K.Euros)
- **Note that single consolidation method "IG / fully conso" for each fictive package.** *Non Conso, Equity Methods and IP methods being directly integrated as such in GBU package, not relying on consolidation treatments*
- **Reporting content** made of **P&L (Sales to Net result), Balance Sheet (Working Capital, Fixed Assets), CAPEX, SCF (Simplified Cash Flow / GBU) and FCF (Free Cash Flow / Group)**
 - using some **aggregated headings** (compared to detailed chart of headings used in ACTUAL's category)
 - using **limited flows** : Closing balance F99 F99EX F99AJ for P&L (to manage both IFRS and Underlying sets of Financial statements), closing balance F99 for BS and some variations flows for CAPEX and SCF/CFS
- **Purpose of PREV Exchange Rates** : not used for the consolidation of Budget data (as packages are reported directly in K. Euros) but **used in RSB (Restated Y-1) consolidations (variant 2) for future months** (when ACTUAL rates are not yet available)

From a **customizing point of view**, this category has its **own**:

- **Scope** (PREVSYENSQO code)
- **Exchange rates** (PREV version)
- **Category scenario** (PREV code)
- **Package schedules / folders and Controls**

2. Reporting Setup

2.1 Reporting setup - Reporting Organizer

The **opening of PREV** phase should occur in **July**.

To create a new Reporting ID for the period, select the one of the previous year in the field **Select Reporting IDs**.

Then in **Reporting Organizer** module **Open** it and **Save As**.

2.2 Reporting setup - RU Organizer and Package Manager

As general rule, BFC Admin should **copy the list of packages completed in the previous PREV exercise**:

- GBU packages using fictive GBU companies (GEST-xxx or SCO-xx, xxx code representing an abbreviation of GBU name)
- 1 Central package (SCO-ADJ)

However, the list of packages to be created **must always be confirmed by Syensqo Corporate Controlling team**:

- in case of new GBU created** since the previous PREV exercise, **most probably that a GBU fictive company will have to be created, integrated in PREV scope and its PREV package created as well**
- in case of GBU divested or merged** since the previous PREV exercise, **most probably that its package will not be required anymore and that its fictive company will be excluded from the PREV scope**

Final step in package manager, launching the **generation of packages**.

3. PREV consolidation scope

3.1 Scope definition

PREVSYENSQO scope must be created in BFC_Top_SCO and piloted to BFC_Prod_SCO.

It has to include the **list of companies for which PREV packages have been created**.

- **Consolidation method - FC Full conso** : as explained above, special consolidation methods (Equity methods, IP, Non Conso) are directly integrated in packages, not relying on consolidation treatments
- **Rate - 100%**

4. PREV Exchange rates

As in ACTUAL (=REEL) Exchange Rates tables, there are the **6 types of conversion rates** updated and used in PREV category:

- **TC - Closing rate** - used for Balance Sheet
- **TMN - Average cumulative rate** - used for P&L
- **TMN-1 - Average rate Dec.Y-1**
- **TO - Opening rate** (equals to Dec.Y-1 closing rate) - used for Balance Sheet
- **TCN-1 - Closing rate N-1** (closing rate / same period of previous year)
- **TMYN-1 - Average rate N-1** (average rate / same period of previous year)

PREV Exchange rates are **provided by Syensqo Corporate Controlling team**.

FX update 2023 BFR12 and 2024 Budget in **PREV** > 100-BFCAdminBFC recurringExchange rates >

JANCOVICI [Eco], Charles-Antoine <charles-antoine.jancovici@solvay.com>

to: S&FC-Admin, Aileen, Justin, Maria, Xiangrong, Nicolas >

Dear BFC Admin Team,

In the frame of the 2023 BFR12 and 2024 Budget exercise, could you please proceed with the following tasks regarding **PREV rates**:

- 1/ Copy all 2023 **PREV rates** (original budget rates) into **PREV-1**
- 2/ Copy 09.2023 and 12.2023 **SIMUL rates** into **PREV** (overwrite, so please proceed only once 2023 **PREV** is copied into **PREV-1**)
- 3/ Lead 2024 **PREV rates** with the values from enclosed file (sheet BFC INPUT)
- 4/ Run RSB corses Variant 2

Thank you very much,

Kind regards,

Charles Antoine JANCOVICI

4.2 Update Sept. PREV with Sept. YY REEL Exc. rates

Once 09 YY REEL rates become available (last working day of the month),

- In **BFC PREV ER update.xlsx**, there's a tab **PREV 09 update (Y)** created to retrieve 09 YY REEL rates and to update TCN-1 & TMYN-1 columns in 09 YY+1 PREV rates table.
- Once the data have been refreshed** (connecting to BFC_TOP) we should **copy the 2 columns into BFC**.

4.3 Update PREV with Dec. YY REEL Exc. rates

Once 12 YY REEL rates become available (last working day of the month), YY+1 PREV rates tables can be updated.

- In **BFC PREV ER update.xlsx** (\\Acew1ptsescp3\BFC-SHARE\IER\PREV) there are 4 tabs **PREV 03 update(Y+1)**, **PREV 06 update(Y+1)**, **PREV 09 update(Y+1)** and **PREV 12 update(Y+1)** created to retrieve 12 YY REEL rates and update Dec. YY-1 in PREV rates.

PREV 03 update(Y+1), PREV 06 update(Y+1), PREV 09 update(Y+1) tabs:

- In these tables we need to update **TMN-1** & **TO** columns.
- Once the data have been refreshed** (connecting to BFC_TOP) we should **copy the 2 columns in each corresponding BFC table**.

4.4 Piloting to BFC_Prod_SCO database

Task SCO-ADMIN has to be used to pilot PREV Exchange rates tables.

No need for Internal control evidences as maintenance of exchange rates is considered as Recurring activities from BFC administration team.

5. Consolidation definition

1 single data entry period of PREV consolidation with 5 consolidated periods:

- Unique data entry period 12.YY
- 5 consolidated periods 12.YY; 03.YY+1; 06.YY+1; 09.YY+1; 12.YY+1

In the tab **General** , the following parameters have to be selected:

- Category:** PREV
- Data entry period:** YYYY.12
- Scope:** PREVSYSQO
- Variant:** 2
- Currency:** EUR
- Long Description:** PREV SYENSQO YYYY- YYYY+1

In the tab **Properties** should contain the following information:

Reporting ID:	PREV - 2023.12	PREV SYENSQO 2023/2024
Category:	PREV	Budget
Data entry period:	2023.12	2023.December
Scope:	PREVSYSQO	PREV SYENSQO
Variant:	2	IFRS Norms
Currency:	EUR	Euro
Long description:	PREV SYENSQO 2023/2024	

- **Scope Period:** YYYY.12
- **Version:** S-1
- **Set of rules:** PREV12
- **Multiply thresholds by:** 1
- **Conversion Rate Period:** YYYY.12
- **Conversion Rate Version:** PREV

6. Communication to Syensqo Corporate Controlling

In July at the initialization phase and at each update of PREV customizing objects, e-mail has to be sent to Syensqo Corporate Controlling to confirm the availability of changes in the BFC_Prod_SCO database.
