

Categorize a content

Overview

A content that is well categorized will be returned correctly in a dynamic list.

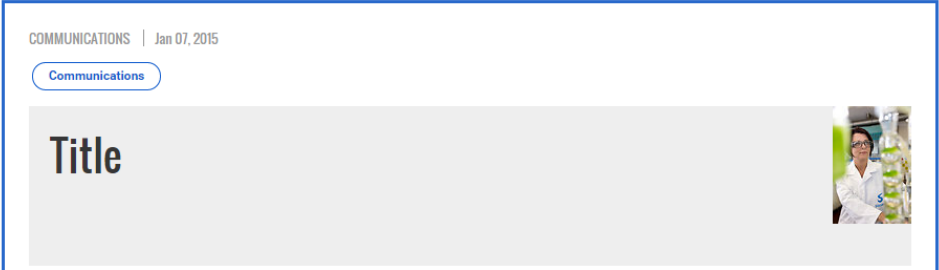

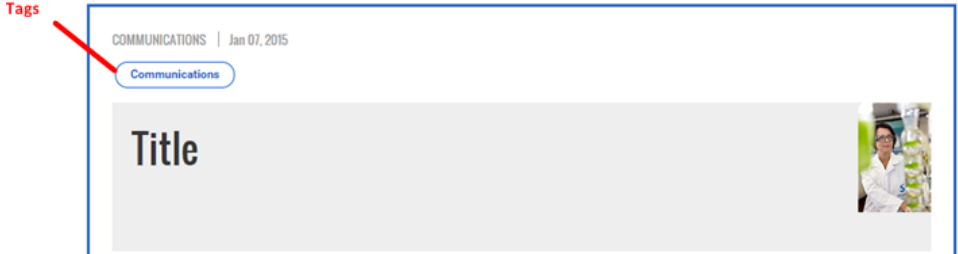

It will also allow visitors to see related content based on the categorizations.

To categorize a content in Tridion, you have to add **Tags** to the content.

Step-by-step guide

Step 1: Reach the page and activate Tridion	
1. Reach the page where you want to categorize your content.	
2. Click the top left "SDL Tridion" button.	
3. You should now be able to see that your page is editable (blue border).	
Step 2: Add Tags	
1. Click on the Tags area (in bubble form).	

2. Here, you can add, change or remove tag from your content:

- To **a**dd one or more Tags, click on the "+" sign
- To **c**hange and browse existing Tags, select a Tag from the left panel
- To **r**e**m**ove a tag, click on the "X" sign

Can't find a Tag?

- You can use the search to find the Tag you want to insert.

Search Tags

Insert Keyword(s)

Select one or more Keywords to insert

Insert

- Enter keyword with the star icon ★ and search example: B2B*

Keyword

Insert Keyword(s)

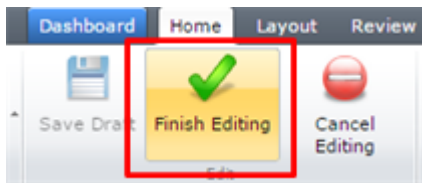

B2B*

Search
