

Integration with Google Apps contents

INTEGRATION WITH GOOGLE APPS CONTENTS

- In Solvay ONE, we integrate a few Google Apps contents (you can embed Google Drive documents/folders, Google calendar, etc...)
 - This integration is downgraded for:
 - mobile/tablets
 - Internet explorer
 - Access via Internet in general
 - A few examples of degradation:
 - Embedded Google Drive content will be replaced by a simple link to this content
 - Calendar widget (in homepage) is only available in Chrome within Intranet network
-
