

Homepage

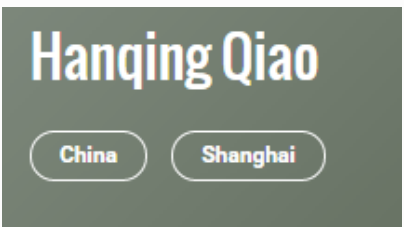

ONE HOMEPAGE - VISITOR'S INFORMATION

- ONE homepage displays visitor's information: **Name + Entity (GBU/SITE) + Country + Site**
- This information comes from GUDSIS

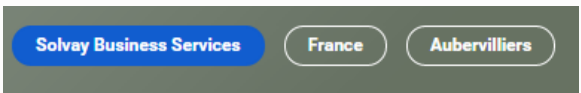

Some visitors might not see their Entity.

This is because the Entity that they belong to does not correspond to a Space in Solvay ONE.

You can access directly to the Entity / Country / Site Space in Solvay ONE homepage if they exist (clickable when mouse roll-over).

It will not be clickable if the Space is not available in Solvay ONE.

PROCEDURE

Incorrect information?

For Internal employees:

1. Contact AskHR to update in HR system
2. HR system will then update GUDSIS
3. GUDSIS will update ONE automatically (up to 24hrs delay)

For External contractors:

1. Contact local ServiceDesk to update GUDSIS information - see [contacts](#)
2. GUDSIS will update ONE automatically (up to 24hrs delay)

ONE HOMEPAGE - UPDATE STREAMS

- ONE homepage also displays Update streams of your ENTITY / COUNTRY / SITE
- Corporate news will also be pushed to all visitors in the homepage
- The colour band of each update stream indicates whether the update streams come from ENTITY (orange), COUNTRY/SITE (yellow) and CORPORATE (blue)
