

Appspace (editor): use Countdown widget

Introduction

This page explains how to use a countdown widget to be integrated in a layout like this:

Create the link

Use this example and change some parameters:

<http://priv.solvay.com/DigitalSignageWeb/tools/countdown.html?title=SAP%20Countdown&date=2019-12-17T03:24:00>

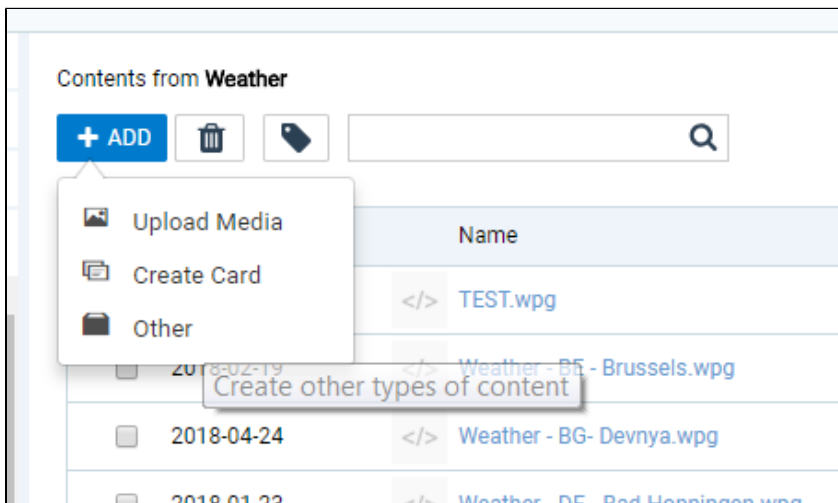

Change these parameters:

Parameter	Description
title	Text in the page
date	date for countdown calculation

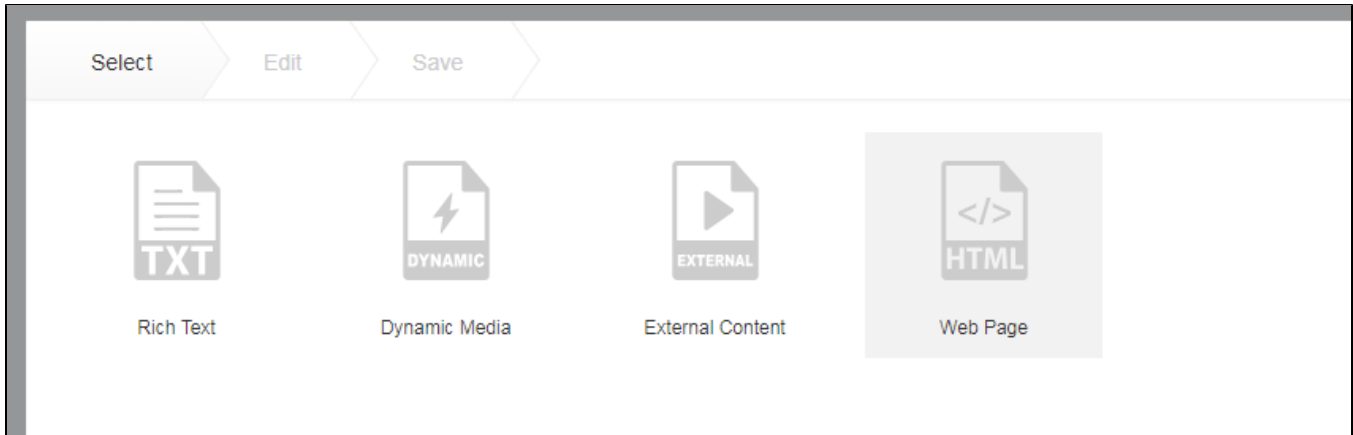

Create a web page in Appspace

Go in a folder of your Appspace library where you want to store the widget.

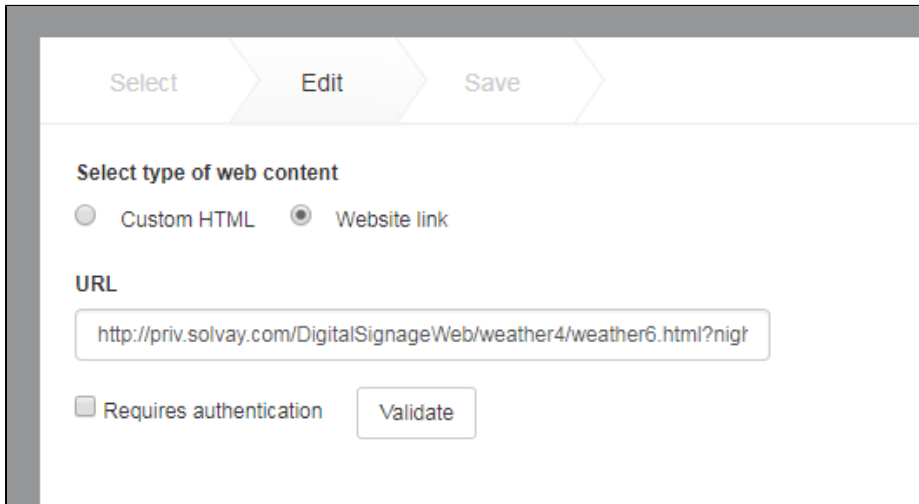

Click on **ADD** and Other:

Select Web page:

Select **Website link** and paste the link in the URL field:

Type a title and a caption like an click on **Save**.

You can use the widget in a layout.
