Objective and Scope

1.1. Objective of this Operation

Describe how to post entries through the Journal Entries Portal and how to request a template creation

1.2. Scope

WW

2. Definitions

See [Finance Glossary](#):

- JE Portal - Journal Entries Portal
- CAM - Company Accounting Manager
- FAC SU - Financial Accounting Service Unit

3. Tasks description

The JE Portal tool in SAP is a tool where the user can make manual entries directly in SAP without sending a request through the ticketing tool.

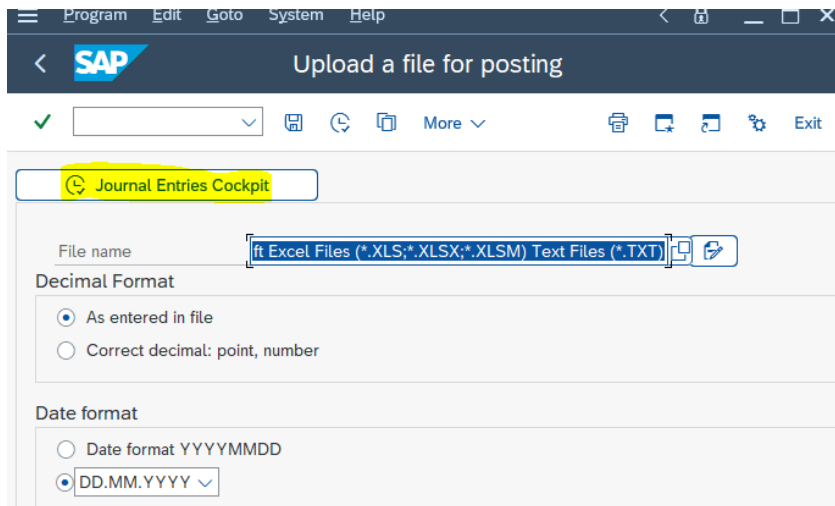

Inside the Portal, the user will find the postings schemes templates already approved to be posted.

The postings can only be performed based on the pre-approved templates. If the posting to be performed is not available in the templates there is a dedicated flow to request the creation (see 3.2).

3.1. I post a manual entry in JE Portal

3.1.1. I post a document in SAP

I enter in transaction ZZF_POSTING_FILE and click in the button "Journal Entries Cockpit".

The following screen will appear:

Process Selection

Create Journal Entry
 Maintain Tables
 Create New Template
 Activity Reporting

Create Journal Entry

Template ID 
 Sub ID to 
 Company Code to 
 Layout
 Display Errors

With the option "Create a Journal Entry" selected, fill in the necessary fields:

Template ID :which can be chosen in the search button  If I do not know the name of the ID, I can search in Library what is the best option for my posting.

Sub ID : As we can have multiple postings options inside the same template, you can choose your Sub ID to display only one, you can select a range of sub IDs or you can leave it blank to bring all the sub IDs created inside the template you have chosen

Library link:

Company Code: I insert the company code where I want to post the document.

Layout: I can save the layout I like to have and use it. otherwise, I leave it blank to view the standard layout.

Then, I press execute

The following screen will appear. Depending on the template selected, it will appear different accounts/ number of line items/ cost centers/ sub IDs and etc.:

3.2. I request a new posting scheme

3.2.1. I identify a new posting scheme not yet available in portal

When the user wants to post an entry not yet available in the portal, he needs to fill in the form ([LINK](#)) in order to get the approval for the new posting scheme. As soon as FAC SU/CAM approved it, the workflow will automatically goes to mission team inside accounting platform, to create the requests and after its creation, the user will receive a notification from AODOCs with the confirmation of the creation.

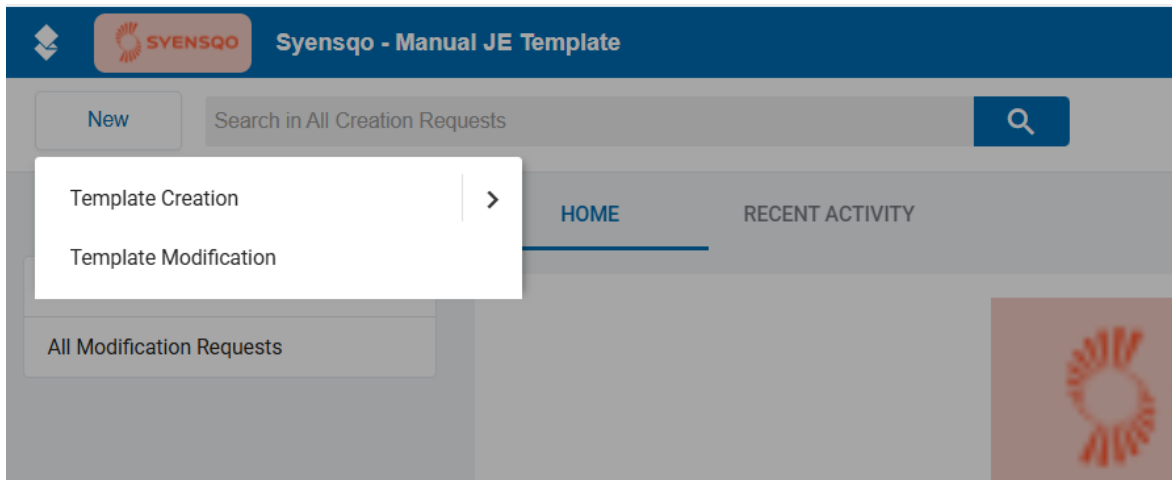

This team will create the new template in the JE Portal in SAP and it will be available in 3 days to be used.

There will be also an option to update an existing template, which can be found in steps below.

3.2.2. I request a new template

1 – Go to the dedicated [AODOCS Library](#)

2 – Click on NEW -> Template Creation

3.1 – Fill in the necessary data

Note: it is mandatory to fill in the Validator (For IFRS: FAC Member; Statutory: CAD of the company)

Important: Please add as attachment the posting scheme that you want to be created as Template for the Journal Entries Portal

3.2 – Once all data is filled in click on Save

Once the request is created it will have the state New and is pending the Validator Approval:

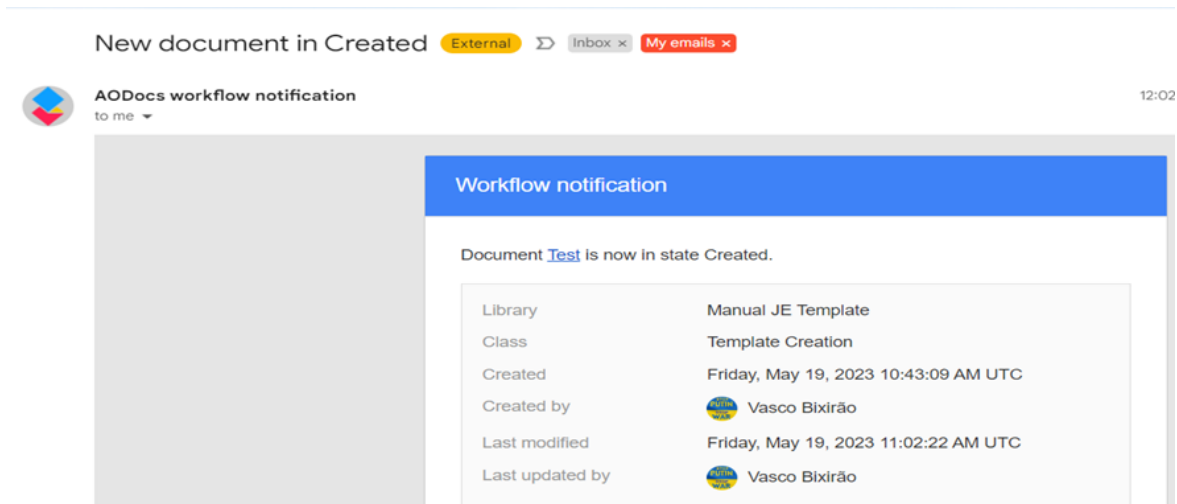

The request will need to be approved by the Validator and the Journal Entries Portal Mission Team will have to create the Template after the validation.

Once the Template is created the request will have status Created:

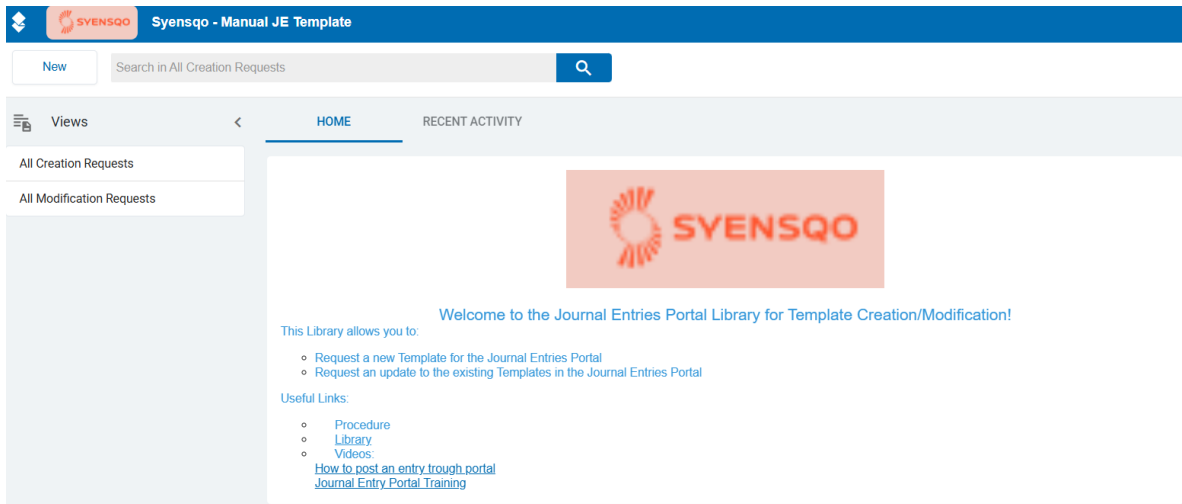

The requester will receive a message advising that the Template has been created

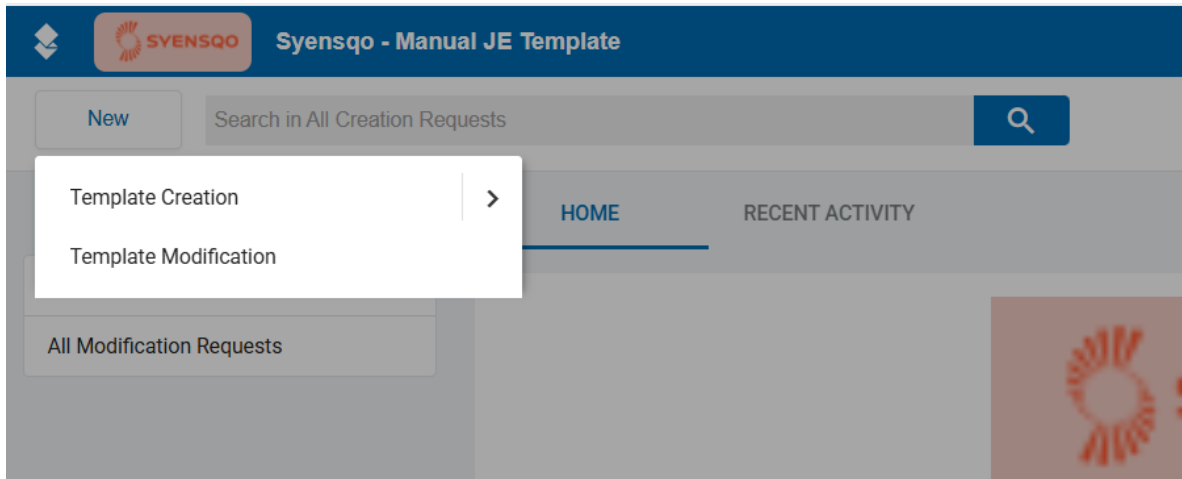

3.2.3. I request a template modification

1 – Go to the dedicated [AODOCS Library](#)

2 – Click on NEW -> Template Modification
