

# How to embedded a View (Aodocs) inside the Tridion page

<p>open the library click on "Administration"</p> <p>Then Click on "Library administration"</p>	
<p>Click on "View" and then choose one "View"</p>	
<p>Click on "Embed URL"</p>	
<p>Copy all the URL</p>	 <p>6. copy all the url</p>

In Solvay one page , chose the "Insert" tab

Then chose the "Embed Code " drop menu in "External Contents" function

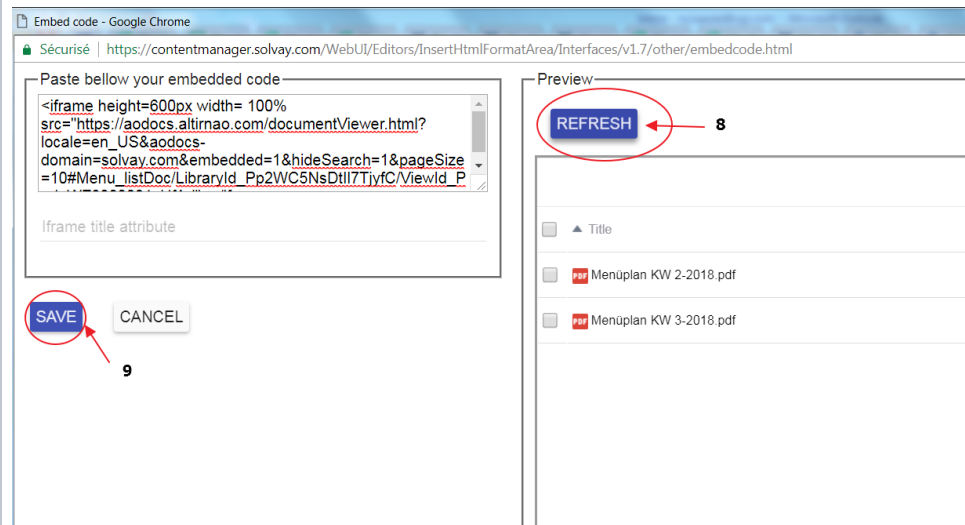

`<iframe height=600px width= 100% src=" URL copied "></iframe>`

1) insert all the url copied inside the src= " "

2) can change the height as you want to

3)click refresh for preview , if it is ok then click Save it

This is a training test
