Entity : GBU COMPOSITE MATERIALS;  
Job Function : Technology & Process;  
Country : China;  
Site : SHANGHAI (YE ZHUANG RD,ZHUANGHANG);  
Office Phone : ###;  
Mobile Phone : +862137498025;  
Security Flags : 9&C2;  
Type of request : Assign access to existing user;  
I need more access because: : I'm starting in a new job position;  
Starting Date : 2022-09-01;  
New position : : engineering manager;  
Access needed for : [Pre-Production];  
Select the SAP system : : [WP1 - RCS];  
Inform for which GBU you'll need access to : [COMPOSITE MATERIALS];  
Determine the location you'll need access to : : The plant you're based only;

### Mistake done my side:

We gave access for the production system also instead of giving access to only pre-production system. please see the screenshot for Reference.

User Request ID : 829581;

Hello Ming,

Good day.

As per the request we gave access for the respective transaction code in WP1 & WV1 systems, Once approved by the concerned approver through IDM tool you can get access.

Approver:: [Daniel.Wang@solvay.com](mailto:Daniel.Wang@solvay.com)

### What should be done to avoid Escalation:

Before assigning to access to any system , make sure which system user asking access Wither production , Quality & Pre-production systems, and assign the access accordingly to which user exactly wants.
