

Upload the production schedule on-demand

I just made a modification to the production schedule in Picaso that I want to upload in SAP right away. I do not want to wait for the [overnight interface](#).

Step-by-step guide

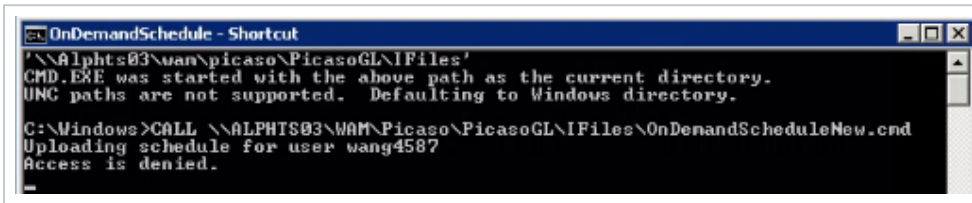

1. First, make sure your user is setup for on-demand upload. See the ADM section on [Push-button management](#).
2. There should be a shortcut on your Picaso desktop that looks like this:

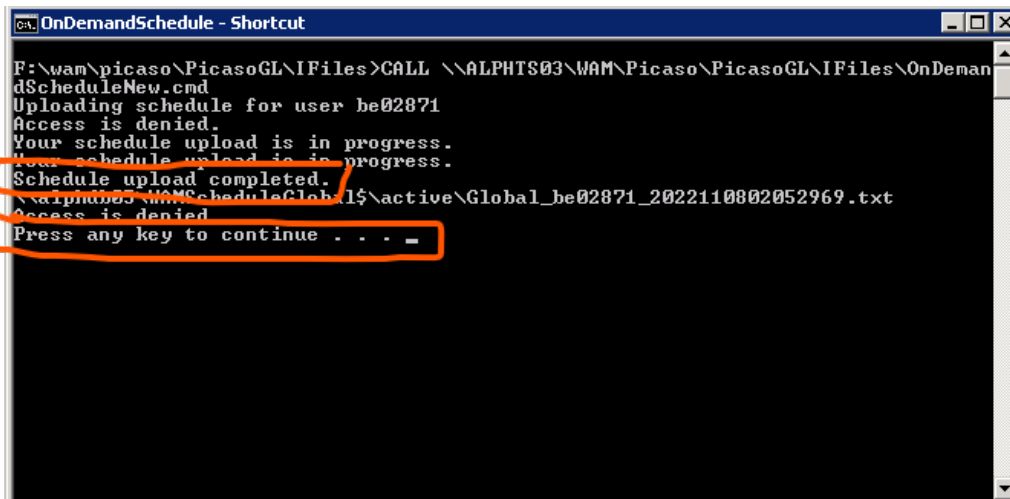

This triggers the on-demand interface.

If there is none, find the exe file here: F:\wam\picaso\PicasoGL\IFiles\OnDemandSchedule.cmd and create a shortcut.

3. A run-time DOS windows pops up during execution. It will give you a series of worrying messages:

4. Wait for a little while. What matters is:
 - a. Schedule upload complete
 - b. Press any key to continue.

Press any key, and you're done.
