

Rules - Cost Center ZCBS_GRP hierarchy

ZCBS_GRP is the code of a cost centers hierarchy that is used in the [Co \\$ta - Dashboard](#). This is a grouping of the Level 2 of the [ZCBS hierarchy](#).

The Level 1 of the ZCBS_GRP hierarchy is used to group:

- GBU cost centers in GRP_GBU
- Function (=CBS excluding the function SBS) cost centers in GRP_FUNCT
- SBS cost centers in GRP_SBS

The Level 2 of the ZCBS_GRP is used to group functions "shared" and functions "corporate" that are separated in the ZCBS hierarchy.

The level 3 of the ZCBS_GRP is the level 2 of the ZCBS hierarchy

You can display the ZCBS_GRP hierarchy in SAP using the transaction [KSH3 - Display cost center hierarchy](#) (only in controlling area Z013)

You can also use the report [FC - Cost centers master data](#) to display all cost centers with their assignment in the hierarchy ZCBS_GRP.

- Level 1 of the ZCBS_GRP = [C_GBUFUNCT] Function grouping in BW
- Level 2 of the ZCBS_GRP = [C_GRPFUNCT] Function in BW
