

Want to - Have to

Want to - Have to: **Creating safety** implies to shift from a “have to” to a “want to” mindset. In this culture, rules are not obeyed just to be compliant, but to be safe, to protect people, neighbours, the environment. This requires to move the organization beyond a **rule-based safety**. **Attitudes and behaviors** by the management and by all are key.

WHY THE “CREATING SAFETY” INITIATIVE ? RULES AND SYSTEMS ARE NOT ENOUGH

INDUSTRIAL
FUNCTION 

The rule is clear but ignored:
they do not “want to”
