

Training Curriculum in Occupational Health (OH-02)

Go to: [HSE Training Curriculum](#)

A Training Curriculum is a knowledge development path recommended by the Industrial HSE in order to ensure the homogeneity of in-house competencies in Health, Safety & Environment throughout the Solvay Group.

A list of the available Training Curricula in other HSE domains, as well as HSE transversal knowledge is available [HERE](#).

Who should follow this training curriculum?

- **Sites:** Site Manager and HSE Manager; Production Manager
- Zone HSE
- HSE liaison with Sites

Contacts

★ YOUR CONTACTS in OH:

- ✓ At Site level: meet the OH physician. If there isn't one on site, establish a contact with the OH physician in charge of the medical surveillance.
- ✓ Identify who is the [medical Country Referent \(if any\)](#), or the [medical Regional Coordinator](#) for your Country.
- ✓ Identify the Clinics/Hospitals/Services where the employees could be sent to for complementary tests related with the medical surveillance or for medical emergency, and define an action plan to create a contact/relationship with these Clinics/Hospital/Services, especially if there is no Site OH physician

★ [SOLVAY OCCUPATIONAL HEALTH NETWORK](#)

Key / Essential knowledge (mandatory)

[Occupational Health Essentials](#)

Group requirements in Occupational Health: [onboarding IND-HSE-OH-08-PRO](#)

[OH Indicators](#)

Well-Being at Work program (information included in 'Occupational Health Essentials' above)

[Solvay WellBeing@Work Awareness](mailto:Solvay_WellBeing@Work_Awareness)

Contact the [medical Country Referent \(if any\)](#), or the [medical Regional Coordinator](#) in order to exchange about:

needs of clarification or support on OH topics

reporting of occupational diseases

work accommodation and return to work

HSE TRANSVERSAL TOPICS : [Key/Essential knowledge \(mandatory\)](#) (see K/E; lower half of the table; columns Site Competencies and/or Industrial Corporate roles)

Other useful Information

Visit the Solvay intranet [OH Wikipages](#)

[OH Gate](#) : if you are interested to use it, contact the [medical Referent/Coordinator](#)

[Risk-based medical surveillance process](#)

[Human BioMonitoring of exposure](#)

First aid and medical recommendations (where relevant) in case of:

Exposure to heat or severe climate conditions ([IND-HSE-OH-10.10-GUI](#))

Burns ([IND-HSE-OH-10.08-GUI](#))

Acute exposure to fluorine, HF and other fluorides ([IND-HSE-OH-10.06-GUI](#))

Acute exposure to phenol ([IND-HSE-OH-10.03-GUI](#))

Acute exposure to chlorine ([IND-HSE-OH-10.02-GUI](#))

[Occupational diseases](#)

[Cardiopulmonary resuscitation \(CPR\)](#)

HSE TRANSVERSAL TOPICS: [Useful Information \(suggested\)](#) (UI; lower half of the table; columns Site Competencies and/or Industrial Corporate roles)

Specific Training

After agreement of your GBU, participate in the following presential trainings:

Organised by HSE in your Zone (for new Site and HSE Managers), which includes an Occupational Health module

Proposed by Solvay in relation with Well-being At Work:
