- [Draft Solvay's PS bulletins table](#)
- [CCPS beacon](#)
- [Other incident databases](#)

Find below the new database of Process Safety Bulletins.

2 types of filters are possible:

- with the plain text search. The search is done in the title and the description of the bulletins, and in the keywords (topics, PSM_element and GBU/Function). For bulletins from 2019, the search is also done in the text of the bulletins.
- with the dropdown lists (topic and PSM_element for Bulletins from 2016, and GBU/Function from 2014)
