

Select Queries

1. Copy tables from one project to other project

for ex :

```
gsutil cp -r gs://cs-ew1-carbon-footprint-dev-staging/Fix\_The\_Basic/\* gs://cs-ew1-prj-kpi-tableau-dashb-1-dev/
```

2. Query to get table attributes

```
SELECT t.ddl  
FROM <Project name>.<Dataset name>.INFORMATION_SCHEMA.TABLES t  
WHERE t.table_name in ('<Table name>');
```
