

How do I request access?

To request access to the Pricing Data Lake section of the Solvay Data Ocean for yourself or for other team members, please:

- Request access to the Pricing Data Lake Product Owner, being mark.vandewielle@solvay.com
- Once you have the approval, you will be added to the relevant Google Group, specifically **ECO-\$Pricing Data Lake**
- Being in this group gives you access to all views within the Pricing Data Lake. As of oct/2023, we do not have subsets with partial access for e.g. GBU-specific views or regional specific views.
- When you go to Google BigQuery, you will not see the Pricing Data Lake project added automatically, even when you have access. You need to add it yourself to your project list for it to appear, or navigate to the relevant URL:
 - PROD: <https://console.cloud.google.com/bigquery?project=prj-data-pricing-prod>
 - TEST: <https://console.cloud.google.com/bigquery?project=prj-data-pricing-test>
