1. Objective and Scope

1.1 Objective of this Operation

The objective of this procedure is to describe the process to perform the quarterly checks on Actual 0.

1.2 Scope

The scope of this procedure is for Consolidated Companies.

2. Definitions

See [Finance Glossary](#).

Deadline proposal: The publication must be done until D+6 and review by CAM until D+7.

BOIC Partner:

Output

☒ Output data to ALV

☒ Output data to file(s)

☐ PC destination folder

Destination folder: C:\Users\vict8379.oxo\Desktop

☐ SAP destination folder

Destination folder: /exploit/Targetik/Data

☒ Several companies in one file

Change company in file name by: ☒

Log

☒ Log to display

☐ Log to database

Once save, the file should no be opened as it changes the formatting of company code, always follow the next procedure to edit the file extracted.

STEP 4

Open in Notebook to adapt the date by:

Select Edit --> Replace or Ctrl H:

Then replace the ACTUAL0 to ACTUAL1:

3.1.2 I upload the data in BFC

STEP 1

Login BFC with your User and Password and click on **Package Import** in Local Data Collection.

Before uploading, check that ACTUAL 0 packages are not locked or protected, otherwise unlocked the package or ask BFC-Admin for unlock.

STEP 2

Upload your file saved in your desktop by clicking on **Upload your file to the local server**.

Do not change the other fields and click on **Data preview** to check that all the lines loaded correctly.

The screenshot shows the 'Package Import' interface. Under 'Data Source', the 'File' field is set to 'ESP_BPT_MH_2023.06.BPT.xlsx'. The 'Columns separator' is 'Delimiter' and 'Text delimiter' is 'None'. A 'Data preview' button is visible. Below, a table shows columns L_CA, L_DP, L_PP, L_PPA, L_PCT, L_F1, L_PAI, L_F2, L_PARR, and L_PARR. The table contains several rows of data, including 'ACTUAL' entries for 2023.06.

STEP 3

Only select **Replace Data**.

⚠ NEVER USE THE OPTION "ERASE THE PACKAGE AMOUNTS BEFORE IMPORTING", otherwise you will deleted data included in the other ACTUAL 0 document.

The screenshot shows the 'Import Settings' section with 'Import amounts' checked and 'Replace data' selected. Other options like 'Add data', 'Delete existing amounts before importing', and 'Import zero balances' are unchecked. The 'Import comments' section is also checked. Below, the 'After Import' section has 'Run package rules', 'Run controls', and 'Publish packages' all unchecked.

STEP 4

Click on **Import**.

- Follow up on the error messages if they exist.
- To check if values were imported, access the BFC Heading L4060 - CBCR - Revenue and headcount - F99 Closing.

The screenshot shows a blue button labeled 'Import' with a document icon next to it.

COUNTRY BY COUNTRY REPORT (CBCR) - REVENUES AND HEADCOUNT

L4060 - CBCR - Revenues and headcount

3.2 I request the Country by Country report **FTE**

At the beginning of June, send an email to Payroll Accounting requesting the Country by Country report by FTE.

Annually, we also need to upload in BFC the values regarding the number of employees per company.

💡 Attach the [previous year's file](#) to be easy to identify the reporting we need.

The screenshot shows an email from 'Reis, Ana karoline' to 'Inés, Tamires, Delphine'. The subject is 'Country by Country report **FTE**'. The email body says: 'Hello Dear Inés, Concerning the CbCR report for 2023, which should be done based on the information from Y-1. Can you provide us with a similar file with the 2022 data? Thank you in advance for your brevity asap. Thank you and best regards.'

As soon as they send, save the file in our [Google Drive](#).

Runa, Inès <ines.runa@solvay.com>
to me, Tamires, Olivier, Bernard, Delphine ▾

Dear Ana,

Please see the file shared with EY last January.

Best regards,

One attachment • Scanned by Gmail ⓘ

3.2.1 I prepare the FTE data to load

STEP 1

Download [the official](#) file, rename (FTE File 202* (**update - 22_06_23**)) and create a new tab with the year that will be imported in BFC.

	J	K	L	M	N	O

2021 2022 2023 2024 Data from HR File PPP 2023 Data from HR File PPP 2024 Data from HR File PPP 2025 GAR List

STEP 5

In the new tab created for the currently year, fill in the columns as below:

- D_CA: ACTUAL0
- D_DP: Current period where the values will be imported, for the example it is 2023.12
- D_AU: 0LIA01

★ Perform some quality checks such as:

- ☐ Make sure you included in the report all companies from the file provided by Payroll team.
- ☐ Check if the companies are IG - Fully Consolidated.
- ☐ Check if all companies are Active.
- ☐ Make sure that you have the correct BFC code in column D_RU.
- ☐ Confirm if the Functional Currency of the company is correct.

- D_RU: BFC code of companies (copy from Data from HR File, tab Company Code (HR))
- D_CU: Functional Currency of the company, make VLOOKUP from GAR List.
- D_AC: CBCR990
- D_FL: F99
- P_AMOUNT make VLOOKUP with tab **Data from HR File** and get amount from Column C: **Active Internal Workforce**.

Leave the next available fields blank:

- D_T1
- D_MO
- D_T2
- D_MARK
- D_CGU
- D_PMARK
- D_MVTCA
- D_ZADM
- D_PAYS
- D_BKAC
- D_SITE
- D_YEAR

STEP 6

Open a new excel file and copy with values the information from the data base treated in Step 5 so we'll be able to convert to CSV and upload in BFC.

	A	B	C	D	E	F	G	H	I	J

28	ACTUAL1	2025.06	2025.06	02002	CBCR300	F99	OLIA01	06423		
29	ACTUAL1	2025.06	2025.06	02002	CBCR300	F99	OLIA01	06424		

STEP 7

Save the file in your Desktop or in the folder you prefer. Save the file in CSV.

Once saved, the file should not be opened as it changes the formatting of company code, if any change is needed open with Notepad.

3.2.2 I upload the FTE data in BFC

STEP 1

Login BFC with your User and Password and click on **Package Import** in Local Data Collection.

Before uploading, check that ACTUAL 0 packages are not locked or protected, otherwise unlocked the package or ask BFC-Admin for unlock.

STEP 2

Upload your file saved in your desktop by clicking on **Upload your file to the local server**.

Do not change the other fields and click on **Data preview** to check that all the lines loaded correctly.

STEP 3

Only select **Replace Data**.

⚠ NEVER USE THE OPTION "ERASE THE PACKAGE AMOUNTS BEFORE IMPORTING", otherwise you will deleted data included in the other ACTUAL 0 document.

STEP 4

Click on **Import**.

STEP 5

Send and email to all CAMs and CADs informing that the CBCR report information for the Actual 0 has been uploaded into the BFC and save the working files in [Google Drive](#).

Actual1 - 2025.06 - CBCR Upload Info Actual0

Victoria, Michaela mitchaella.victoria@syensco.com

to Nathalie, Sandra, Seoyeon, CROSTEN, DEMILSON, Dominik, ROBERTA, Michael, Francesco, Midori, Mandy, Gaurav, Ronald, Florence, Ping, Carla, Imke, Maria, Diana, Mark, Martin, Sir

Dear all,

We would like to inform you that the CBCR report information for Actual1 (2025.06) has been uploaded into the BFC.

You may now proceed with the verifications.

2. Actual 1 Pillar 2 & CbCR

Contact: Sofia Martono / Anne
Calabu/Tachine Ouamrane
anne.calabu@syensco.com

Objective Actual 1 package is to comply with the OECD requirements related to CBCR and Pillar 2

- The 2024 Full year exercise is closed at:
1. checking whether a 'top-up' file would be due in case the country is not safe-harborized
 2. training you, providing that the transitional period will end in 2024 (i.e. as from 1/1/2027, Actual 1 schedule will be mandatory)
- The exercise should have been finished by the end of May, but it appears that almost no manual adjustments were reported, even though we know that there should have been some => we need to train you on the manual adjustments that are necessary to be done => [https://data.syensco.com/act1](#)
- we are still facing some sign-convention and other email issues in the BFC Actual 1 schedule that are under resolution => the 2024 packages will have to be re-named and will be available for your review as from end of June (date to be confirmed). We apologise for the inconvenience it may cause.
- == FINAL REVIEW POSTPONED UNTIL EARLY SEPTEMBER ==**

Regarding the 2025 Q2 exercise: Quarterly package updated with actual data, automatically from several BFC sources after quarterly closure to be completed with the manual adjustments (not mandatory for safe-harborized countries to date).

- Check the following:**
1. By 24th, 25th or 26th, we will upload CBCR Q2 data for the [safe-harborized](#) entities in Actual 1
 2. On 24th, CAM to validate the data and publish the Actual 1 package

Pillar 2 schedule will be available at [act2](#) for the [fully consolidated](#) and [proportionate](#) entities and needs to be published at [act2](#) together with the CBCR.

Based on Actual 1 package, the team will determine the countries which are not safe-harborized (based on prior assignment Luxembourg, China & USA) and will contact the CAM to confirm the manual items that need to be reported in the Pillar 2 schedule (and only those).

Qualities are stored [here](#).
Useful Tool from OECD to answer your question can be found [here](#).

4

Best Regards,
